Special topics/Sujets spéciaux

In memoriam/À la mémoire de

R. Martin and P. Ellis

1

Review article – Virology/Virologie

A systems-based approach to manage strawberry virus diseases

I. E. Tzanetakis and R. R. Martin

5

Epidemiology/Epidémiologie

Sensitivity of western Canadian *Pyrenophora teres* f. *teres* and *P. teres* f. *maculata* isolates to propiconazole and pyraclostrobin

A. Akhavan, S. E. Strelkov, H. Askarian, S. V. Kher, M. Fraser, H. R. Kutcher and T. K. Turkington

11

Soilborne pathogens/Agents pathogènes telluriques

Metabolic cost of resistance in clubroot-resistant canola and napa cabbage

B. D. Gossen, J. A. Dalton, F. Al-Daoud and M. R. McDonald

25

Influence of environment, crop age and cultivar on the development and severity of Fusarium yellows in field-grown sugar beet

K. M. Webb, S. J. Delgrosso, M. S. West, C. Freeman and T. Brenner

37

Virology/Virologie

Biological and molecular characterization of *Zucchini yellow mosaic virus* isolates infecting melon in Xinjiang, China

D. Wang and G. Li

48

Disease report/Rapport des maladies

Occurrence of botrytis leaf blight, anthracnose leaf spot, and white blister rust on *Wasabia japonica* in British Columbia

J. L. MacDonald and Z. K. Punja

60

First report of *Sclerotinia sclerotiorum* causing pod rot disease on okra in Bangladesh

A. Prova, A. M. Akanda, S. Islam and Md. Motaher Hossain

72

Fusarium wilt of cauliflower caused by *Fusarium equiseti* in China

P.-L. Li, Y.-X. Shi, M.-Y. Guo, X.-W. Xie, A.-L. Chai and B.-J. Li

77

Identification of *Plum pox virus* causing sharka disease on peach (*Prunus persica* L.) in Mexico

A. Loera-Muro, R. Gutiérrez-Campos, M. Delgado, S. Hernández-Camacho and R. J. Holguín-Peña

83

Abstracts/Résumés

Annual Meeting, The Canadian Phytopathological Society, 2016/Réunion annuelle, la société canadienne de phytopathologie, 2016

87

Saskatchewan Regional Meeting, 2016/Réunion régionale de la Saskatchewan, 2016

114

Cover illustrations: *(Left)* Symptoms of virus infection on strawberry leaflet 'Totem' caused by a complex of *Strawberry crinkle virus*, *Strawberry mottle virus* and *Strawberry mild yellow edge virus*. For more insight, see the article by I.E. Tzanetakis and R.R. Martin in this issue. *(Right)* Leaf distortion and swellings on wasabi leaf due to white blister rust infection, caused by *Albugo candida*. For more insight, see the article by J.L. MacDonald and Z.K. Punja in this issue.
