

# Agricultural Research

VOLUME 60 NUMBER 2 JUNE 2017

## Review article

- A review of soil carbon change in New Zealand's grazed grasslands  
*L. A. Schipper, P. L. Mudge, M. U. F. Kirschbaum, C. B. Hedley,  
N. E. Golubiewski, S. J. Smaill and F. M. Kelliher* 93

## Research articles

- Nitrous oxide emissions from cattle urine deposited onto soil  
supporting a winter forage kale crop  
*T. J. van der Weerden, T. M. Styles, A. J. Rutherford,  
C. A. M. de Klein and R. Dynes* 119

- Winter grazing and dead material effects on early spring pasture  
production  
*B. R. Thompson, D. R. Stevens, A. J. Wall, R. A. Moss, K. T. O'Neill  
and N. R. Cox* 131

- Price transmission in whole milk powder markets: implications for  
the Oceania dairy sector of changing market developments  
*J. Zhang, C. Brown, X. Dong and S. Waldron* 140

- Nitrogen fertiliser application rates and nitrogen leaching in  
intensively managed sheep grazed hill country pastures in  
New Zealand  
*C. J. Hoogendoorn, M. G. Lambert, B. P. Devantier,  
P. W. Theobald and Z. A. Park* 154

- Drought tolerance of two perennial ryegrass cultivars with and  
without AR37 endophyte  
*L. He, J.-H. B. Hatier and C. Matthew* 173

- Evaluating nutritional value of processed potato vines by *in vitro*  
gas production  
*H. Noordar, M. Malecky, H. Jahanian Najafabadi and  
B. Navidshad* 189

## Short communications

- Testing large area lysimeter designs to measure leaching under  
multiple urine patches  
*S. Carrick, G. Rogers, K. Cameron, B. Malcolm and J. Payne* 205

- Soil nutrient concentrations and farm gate nutrient balances  
for dairy farm management in Tasmania  
*W. E. Cotching, L. Taylor, S. Findlay, P. Davies, S. Bennett  
and R. Brown* 216
