

JOURNAL OF THE AMERICAN SOCIETY FOR HORTICULTURAL SCIENCE

VOL. 142, NO. 3

CONTENTS

MAY 2017

- 155 A Practical Method for Peach-related Species Identification and Hybrid Analysis Using Simple Sequence Repeat Markers
Zuguo Cai, Wenfang Zeng, Liang Niu, Zhenhua Lu, Guochao Cui, Yunqin Zhu, Lei Pan, Yifeng Ding, and Zhiqiang Wang
- 163 Characterization of the MAPK Gene Family and *PbrMAPK13* Response to Hormone and Temperature Stresses via Different Expression Pattern in *Pyrus ×bretschneideri* Pollen
Jin Jiao, Xing Liu, Juyou Wu, Guohua Xu, and Shaoling Zhang
- 175 Variation in Floral Scent Compositions of Different Lily Hybrid Groups
Ying Kong, Jinrong Bai, Lixin Lang, Fang Bao, Xiaoying Dou, Huan Wang, and Hongzhong Shang
- 184 Identification and Analysis of Genes Involved in the Jasmonate Pathway in Response to Ethephon and 1-Methylcyclopropene during the Ripening of Apple Fruit
Jingyi Lv, Yonghong Ge, Canying Li, Mengyuan Zhang, and Jianrong Li
- 192 Phenolic Accumulation in Hybrid Primrose and Pigment Distribution in Different Flower Segments
Valentina Schmitzer, Maja Mikulic-Petkovsek, Franci Stampar, and Vlasta Cunja
- 200 Development of RNA-Seq SSR Markers and Application to Genetic Relationship Analysis among Sea Buckthorn Germplasm
He Li, Cheng-Jiang Ruan, Li Wang, Jian Ding, and Xing-Jun Tian
- 209 MdMYB4, an R2R3-Type MYB Transcription Factor, Plays a Crucial Role in Cold and Salt Stress in Apple Calli
Ruigang Wu, Yi Wang, Ting Wu, Xuefeng Xu, and Zhenhai Han
- 217 Characterization of Polymorphic Chloroplast Microsatellites in *Prunus* Species and Maternal Lineages in Peach Genotypes
Chunxian Chen and William R. Okie
- 225 Genetic Diversity and Association Study of Aromatics in Grapevine
Xiaoxu Yang, Yinshan Guo, Junchi Zhu, Zaozhu Niu, Guangli Shi, Zhendong Liu, Kun Li, and Xiuwu Guo
