

## **Earth Technology and Engineering**

- 203 **T. STOICHEV, J. ESPINHA MARQUES, C.M. ALMEIDA, A. DE DIEGO, M.C.P. BASTO, R. MOURA, V.M. VASCONCELOS**  
Simple statistical models for relating river discharge with precipitation and air temperature—  
Case study of River Vouga (Portugal)
- 214 **Ştefan BILAŞCO, Corina GOVOR, Sanda ROŞCA, Iuliu VESCAN, Sorin FILIP, Ioan FODOREAN**  
GIS model for identifying urban areas vulnerable to noise pollution: case study
- 229 **Liliana ZAHARIA, Romulus COSTACHE, Remus PRĂVĂLIE, Gabriela IOANA-TOROIMAC**  
Mapping flood and flooding potential indices: a methodological approach to identifying areas susceptible to flood and flooding risk. Case study: the Prahova catchment (Romania)
- 248 **Nan WANG, Shanshan ZHAO, Jian HUI, Qiming QIN**  
Passive Super-Low Frequency electromagnetic prospecting technique

## **Environmental Geosciences**

- 268 **Xuefei MEI, P.H.A.J.M. VAN GELDER, Zhijun DAI, Zhenghong TANG**  
Impact of dams on flood occurrence of selected rivers in the United States
- 283 **Xueping WANG, Jingchao HAN, Chunjuan BI, Xing HUANG, Jinpu JIA, Zhenlou CHEN**  
Distribution, sources, and risk assessment of polychlorinated biphenyls in surface waters and sediments of rivers in Shanghai, China

- 297 **Jianhai LV, Yaoqiu KUANG, Hui ZHAO, Andreas ANDERSSON**  
Patterns of coccolithophore pigment change under global acidification conditions based on *in-situ* observations at BATS site between July 1990–Dec 2008
- 308 **Jianhai LV, Yaoqiu KUANG, Hui ZHAO, Andreas ANDERSSON**  
Erratum to: Patterns of coccolithophore pigment change under global acidification conditions based on *in-situ* observations at BATS site between July 1990–Dec 2008
- 310 **Hui ZHANG, Qiao WANG, Guangyu LI, Hanpei ZHANG, Jue ZHANG**  
Losses of Ecosystem Service Values in the Taihu Lake Basin from 1979 to 2010
- 321 **Jun JING, Lingdan XIA, Kai LI**  
Development of defoliating insects and their preferences for host plants under varying temperatures in a subtropical evergreen forest in eastern China
- 332 **Hongyang LIN, Jianyu HU, Jia ZHU, Peng CHENG, Zhaozhang CHEN, Zhenyu SUN, Dewen CHEN**  
Tide- and wind-driven variability of water level in Sansha Bay, Fujian, China
- 347 **Ya GAO, Zhanyong WANG, Qing-Chang LU, Chao LIU, Zhong-Ren PENG, Yue YU**  
Prediction of vertical PM<sub>2.5</sub> concentrations alongside an elevated expressway by using the neural network hybrid model and generalized additive model

### **Earth Surface Processes**

- 361 **Weizhong SU**  
Measuring the past 20 years of urban-rural land growth in flood-prone areas in the developed Taihu Lake watershed, China
- 372 **Chong PENG, Hao XIAO, Yu LIU, Jingjing ZHANG**  
Economic structure and environmental quality and their impact on changing land use efficiency in China
- 385 **Qing TIAN, Qing WANG, Yalong LIU**  
Geomorphic change in Dingzi Bay, East China since the 1950s: impacts of human activity and fluvial input
- 397 **Hongfen ZHU, Rutian BI, Yonghong DUAN, Zhanjun XU**  
Scale-location specific relations between soil nutrients and topographic factors in the Fen River Basin, Chinese Loess Plateau
- 407 **Liangxia ZHANG, Wei CAO, Jiangwen FAN**  
Soil organic carbon dynamics in Xilingol grassland of northern China induced by the Beijing-Tianjin Sand Source Control Program
- 416 **Zewei YAO, Guangyu HE, Xiaoli ZHENG, Chuanwan DONG, Zicheng CAO, Suju YANG, Yi GU**  
A geometric model of faulted detachment folding with pure shear and its application in the Tarim Basin, NW China
- 427 **Penggao FANG, Weiwei DING, Yinxia FANG, Zhongxian ZHAO, Zhibing FENG**  
Cenozoic tectonic subsidence in the Southern Continental Margin, South China Sea
