

Influence of different pollen diets on the development of hypopharyngeal glands and size of acid gland sacs in caged honey bees (<i>Apis mellifera</i>) E. OMAR, A.A. ABD-ELLA, M.M. KHODAIRY, R. MOOSBECKHOFFER, K. CRAILSHEIM, R. BRODSCHNEIDER (Austria, Egypt)	425
Antennal sensilla of cleptoparasitic and non-parasitic bees in two subfamilies of Apidae G.L. GALVANI, R.A. GONZÁLEZ-VAQUERO, C. GUERRA-NAVARRO, B.P. SETTEMBRINI (Argentina)	437
Nest architecture, life cycle, and natural enemies of the neotropical leafcutting bee <i>Megachile</i> (<i>Moureapis</i>) <i>maculata</i> (Hymenoptera: Megachilidae) in a montane forest W.D.O. SABINO, Y. ANTONINI (Brazil)	450
Convergent evolution of pollen transport mode in two distantly related bee genera (Hymenoptera: Andrenidae and Melittidae) Z.M. PORTMAN, V.J. TEPEDINO (USA)	461
Leaf foraging sources of leafcutter bees in a tropical environment: implications for conservation S.S. KAMBLI, M.S. AISWARYA, K. MANOJ, S. VARMA, G. ASHA, T.P. RAJESH, P.A. SINU (India, USA)	473
Effects of synthetic acaricides on honey bee grooming behavior against the parasitic <i>Varroa destructor</i> mite I.M. DE MATTOS, A.E.E. SOARES, D.R. TARPY (Brazil, USA)	483
Risk assessment for large African hive beetles (<i>Oplostomus</i> spp.)—a review B.P. OLDROYD, M.H. ALLSOPP (Australia, South Africa)	495
Hygienic behavior in <i>Melipona quadrifasciata anthidioides</i> (Apidae, Meliponini) J.N. DE JESUS, E.D. CHAMBÓ, G. DA SILVA SODRÉ, N.T.E. DE OLIVEIRA, C.A.L. DE CARVALHO (Brazil)	504
Areas of endemism in the Atlantic Forest: quantitative biogeography insights from orchid bees (Apidae: Euglossini) A.R.S. GARRAFFONI, F.R. MOURA, A.P. LOURENÇO (Brazil)	513
The primitively social behavior of <i>Euglossa cordata</i> (Hymenoptera, Apidae, Euglossini): a view from the perspective of kin selection theory and models of reproductive skew G.A. FREIRIA, C.A. GARÓFALO, M.A. DEL LAMA (Brazil)	523
Mitochondrial DNA variation of <i>Apis mellifera iberiensis</i> : further insights from a large-scale study using sequence data of the tRNA ^{Leu} -cox2 intergenic region J. CHÁVEZ-GALARZA, L. GARNERY, D. HENRIQUES, C.J. NEVES, W. LOUCIF-AYAD, J.S. JONHSTON, M.A. PINTO (Portugal, France, Algeria, USA)	533
Testing the relative importance of local resources and landscape connectivity on <i>Bombus impatiens</i> (Hymenoptera, Apidae) colonies J.D. HERRMANN, N.M. HADDAD, D.J. LEVEY (USA, Germany)	545
Landscape and pesticide effects on honey bees: forager survival and expression of acetylcholinesterase and brain oxidative genes M. ALBURAKI, S.J. STECKEL, D. CHEN, E. MCDERMOTT, M. WEISS, J.A. SKINNER, H. KELLY, G. LORENZ, D.R. TARPY, W.G. MEIKLE, J. ADAMCZYK, S.D. STEWART (USA)	556
Scientific note: the histerid beetle <i>Omalodes foveola</i> (Coleoptera: Histeridae) found as a Melittophile, co-inhabiting Africanized honeybee hives in Brazil E. KRÜGER, C. KAHLOW, F.W.T. LEIVAS, G.S.E. SCHÜHLI (Brazil)	572
