### **SPECIAL ISSUE: WATER ISSUES IN PALESTINE: AN OVERVIEW**

**Guest Editor: Prof. Meine Pieter van Dijk, Dr. Eldon R. Rene, Dr. Hassan Sawalha and Dr. Sameer Shadeed**

- 1        **Introduction: Water issues in Palestine, issues and possible solutions**  
*Meine Pieter van Dijk*

#### **Section 1: Water resources issues in the West Bank**

- 17       **Evaluation and assessment of water budget in the eastern aquifer basin of the West Bank, Palestine**  
*Fadi Dweik, Mahmoud Rahil and Mhd. Suhyb Salama*
- 29       **Evaluation of water harvesting and managed aquifer recharge potential in Upper Fara' basin in Palestine: comparing MYWAS and water productivity approaches**  
*Bernardien Tiehatten, Karen Assaf, Marwan Ghanem, Anan Jayyousi, Amer Marei, Erik Mostert, Sameer Shadeed, Gerrit Schoups, Ebel Smidt and Omar Zayed*
- 45       **Inventory of the potential artificial recharge practice in the Eastern Aquifer basin: the case of Al-Qilt catchment, Palestine**  
*Dalal Thaher, Marwan Ghanem and Ebel Smidt*

#### **Section 2: Water issues in Gaza**

- 62       **Water supply management plan in Gaza Strip/Palestine**  
*Ahmed Al-Yaqoubi*
- 76       **Visualising the spatial distribution of diarrheal disease using the geographical information system: a WASH perspective**  
*Reem Abu Shomar, Mahmood Abdelatif and Yaser Kishawi*

#### **Section 3: Drinking water issues**

- 91       **Drinking water loss management in Palestine: a case study of the Hebron city water distribution network**  
*Samah Jawad Jabari*
- 106      **The political economy of water, pricing in Palestine and how to create incentives for cost recovery**  
*Meine Pieter van Dijk*

#### **Section 4: Water governance assessments**

- 119      **Assessment of water governance in the West Bank, Palestine**  
*Tariq Judeh, Marwan Haddad and Gül Özerol*

- 135 **Governing the reuse of treated wastewater in irrigation: the case study of Jericho, Palestine**  
*Nasser Al-Khatib, Jawad A.H. Shoqeir, Gül Özerol and Linda Majaj*

**Section 5: Pollution issues: water quality, sanitation and public health**

- 149 **Adsorption of organic pollutants from dairy wastewater on soil: pollution problem and control**  
*Maher Al-Jabari, Nadia Iqefan, Nareman Zahdeh and Hiba Dweik*
- 162 **Anaerobic biodegradation of olive mill wastewater: batch and UASB reactor performance**  
*Wala'a Alshiekh Abdallah, Omar Zimmo, Eldon R. Rene and Peter van der Steen*

**Section 6: Water and agriculture**

- 176 **Effect of land-use/land-cover change on the future of rainfed agriculture in the Jenin Governorate, Palestine**  
*Salem Thawaba, Maher Abu-Madi and Gül Özerol*
- 190 **Developing a GIS-based agro-land suitability map for the Faria agricultural catchment, Palestine**  
*Sameer M. Shadeed, Atta M.E. Abboushi and Mohammad N. Almasri*

**Section 7: Conclusions and practical recommendations**

- 205 **Conclusions and practical recommendations from water-related research in Palestine**  
*Meine Pieter van Dijk, Eldon R. Rene, Hassan Sawalha and Sameer Shadeed*
