

CONTENTS

Volume 14 Number 3 2017

- A Review: Nanomaterials as a Filler in Natural Fiber Reinforced Composites
S. Behnam Hosseini 311
- Screen-Printing of Cotton with Natural Pigments: Evaluation of Color and Fastness Properties of the Prints
Georgios Savvidis, Vaggelis Karanikas, Maria Zarkogianni, Ioannis Eleftheriadis, Nikolaos Nikolaidis, and Eforia Tsatsaroni 326
- Surface Modification of Coir Fibers for Extended Hydrophobicity and Antimicrobial Property for Possible Geotextile Application
S. Sumi, N. Unnikrishnan, and Lea Mathew 335
- Photochemical Degradation of Disazo Dyes, R-Salt Derivatives, on Dyed Cotton
Krzysztof Wojciechowski and Malgorzata Jedrzejczak 346
- Mechanical, Thermal, and Interfacial Characterization of Randomly Oriented Short Sisal Fibers Reinforced Epoxy Composite Modified with Epoxidized Soybean Oil
Sushanta K. Sahoo, Smita Mohanty, and Sanjay K. Nayak 357
- Long-Unidirectional Palm and Sisal Fibers Reinforced Composite: An Experimental Investigation
Sebti Jaballi, Imed Miraoui, and Hedi Hassis 368
- Natural Fiber Improvement by Laccase; Optimization, Characterization and Application in Medium Density Fiberboard
Mohammed Nasir, Rokiah Hashim, Othman Sulaiman, Arun Gupta, Tanveer Ahmed Khan, Mohammad Jawaid, and Mohd Asim 379
- A Study of Physical and Mechanical Properties of the Indian Coconut for Efficient Dehusking
Abi Varghese, Francis K, and Jippu Jacob 390
- A Study on Wicking in Natural Staple Yarns
Q. Li, J. J. Wang, and C. J. Hurren 400
- Properties of Hemp–Flax Composites for Use in the Building Industry
Danuta Barnat-Hunek, Piotr Smarzewski, and Przemysław Brzyski 410
- Paper Properties of Typha Latifolia, Pennisetum Alopecuroides, and Agave Americana Fibers and Their Effect as a Substitute for Kraft Pulp Fibers
Hind El Omari, Ahmed Belfkira, and François Brouillette 426
- Sonosynthesis of Microcellulose from Kenaf Fiber: Optimization of Process Parameters
Mohammad Reza Ketabchi, Mohammad Khalid, Chantara Theyy Ratnam, Rashmi Walvekar, and Luqman Chuah Abdullah 437
- Performance Evaluation of Abrasive Water Jet Machining on Banana Fiber Reinforced Polyester Composite
V. Arumuga Prabu, S. Thirumalai Kumaran, and M. Uthayakumar 450

Volume 14 Number 4 2017

- Characterization of Thermal Properties of Pig Hair Fiber
N. H. Mohan, L. Ammayappan, D. K. Sarma, S. Debnath, and M. K. Tamuli 459
- Hibiscus Cannabinus* L. – « Kenaf »: A Review Paper
R. Ayadi, M. Hanana, R. Mzid, L. Hamrouni, M. I. Khouja, and A. Salhi Hanachi 466

Evaluation of Structural, Tensile and Thermal Properties of Banana Fibers <i>Raghavendra Subramanya, Kestur Gundappa Satyanarayana, and Balachandra Shetty Pilar</i>	485
Sugarcane Straw Reinforced Castor Oil Polyurethane Composites: Fiber Characterization and Analysis of Composite Properties <i>Patricia Câmara Miléo, George Jackson de Moraes Rocha, and Adilson Roberto Gonçalves</i>	498
Study on Reuse of Coconut Fiber Chemical Retting Bath. Part II—Recovery and Characterization of Lignin <i>Seiko Jose, Leena Mishra, Gautam Basu, and Ashis Kumarsamanta</i>	510
Effect of Binary and Ternary Combination of Metal Salt Mordants on Dyeing and Fastness Properties of Natural Protein Fibre with <i>Juglans regia</i> L. Dye <i>Mohd Nadeem Bukhari, Mohd Shahid-ul-Islam, Shabbir, Luqman Jameel Rather, Mohd Shahid, Mohd Ali Khan, and Faqeer Mohammad</i>	519
Deformation of Cotton Weft-Knitted Fabric Subjected to Tensile Loads <i>Piotr Szablewski and Ryszard Korycki</i>	530
Some Properties of Composite Panels Manufactured from Eastern Redcedar (<i>Juniperus virginiana</i> L.) Using Modified Starch as a Green Binder <i>Aujchariya Chotikhun and Salim Hiziroglu</i>	541
Optimization of the Strength Properties of Waste Oil Palm (<i>Elaeis Guineensis</i>) Fronds Fiber <i>Owolabi Folahan Abdul Wahab Taiwo, Abbas F. M. Alkarkhi, Arniza Ghazali, and Wanrosli Wan Daud</i>	551
Determination of the Dyeing Potential of Mint and Sage Crops Wastes on Wool and Cotton Fibers <i>Ferda Eser, İsa Telci, Fikret Yilmaz, Cengiz Temiz, Ebru Aktas, and Adem Onal</i>	564
LED Utilization in Cotton Color Measurement <i>Michal Vik, Nayab Khan, and Martina Vikova</i>	574
Bi and Tri Metal Salt Combinations plus Colorants Extracted from Timber Industry Waste as Effective Dyeing Materials to Produce Novel Shades on Wool <i>Shahid-ul-Islam, Luqman Jameel Rather, Mohd Shabbir, Mohd Nadeem Bukhari, Mohd Shahid, Mohd Ali Khan, and Faqeer Mohammad</i>	586
Developing a Shade Range on Wool by Madder (<i>Rubia cordifolia</i>) Root Extract with Gallnut (<i>Quercus infectoria</i>) as Biomordant <i>Mohd Yusuf, Shafat Ahmad Khan, Mohd Shabbir, and Faqeer Mohammad</i>	597
