

PLANT, SOIL AND ENVIRONMENT

Volume 63, No. 6

June 2017

CONTENTS

- Liu X., Qi Z.M., Wang Q., Ma Z.W., Li L.H.:
Effects of biochar addition on CO₂ and CH₄ emissions from
a cultivated sandy loam soil during freeze-thaw cycles .. 243
- Li Z., Zhang L., Chen J., Zhang X.L., Yu S.Q., Zhang W.Y., Ma X.C., Guo X.M., Niu D.K.:
Response of soil sulfur availability to elevation and degradation
in the Wugong Mountain meadow, China 250
- Faber F., Wachter E., Zaller J.G. :
Earthworms are little affected by reduced soil tillage methods in vineyards 257
- Gałązka A., Gawryjołek K., Grządziel J., Frąc M., Księżak J.:
Microbial community diversity and the interaction of soil under maize growth
in different cultivation techniques 264
- Spanò C., Bottega S., Ruffini Castiglione M., Pedranzani H.E.:
Antioxidant response to cold stress in two oil plants of the genus *Jatropha* 271
- Patkowska E., Błażewicz-Woźniak M., Wach D.:
Antagonistic activity of selected bacteria of the soil environment of carrot 277
- Šlosár M., Mezeyová I., Hegedüsová A., Andrejiová A., Kováčik P., Lošák T., Kopta T., Keutgen A.J.:
Effect of zinc fertilisation on yield and selected qualitative parameters of broccoli 282
