

# INDUSTRIAL CROPS AND PRODUCTS

VOLUME 106

1 November 2017

## Contents

### Special Issue

Challenges in Building a Sustainable Biobased Economy

### Guest Editor

Solange I. Mussatto

### Editorial

Challenges in Building a Sustainable Bio-  
Based Economy

*S.I. Mussatto (Denmark)*

1

Exploiting the potential of gas fermentation

*S. Redl (Denmark), M. Diender  
(The Netherlands), T.Ø. Jensen (Denmark),  
D.Z. Sousa (The Netherlands)  
and A.T. Nielsen (Denmark)*

21

### Preface

Preface

*ir.L.A.M. van der Wielen and B. Brouwer*

3

Environmental impacts of technology learn-  
ing curve for cellulosic ethanol in Brazil

*O. Cavalett, M.F. Chagas, T.L. Junqueira,  
M.D.B. Watanabe and A. Bonomi (Brazil)*

31

### Industrial and Environmental Biotechnology

Development of an acetic acid tolerant  
*Spathaspora passalidarum* strain through  
evolutionary engineering with resistance to  
inhibitors compounds of autohydrolysate  
of *Eucalyptus globulus*

*P. Morales, J.C. Gentina, G. Aroca (Chile)  
and S.I. Mussatto (Denmark)*

5

### Fundamental Research in Biobased Economy

Determination of effective moisture dif-  
fusivity, energy consumption and active  
ingredient concentration variation in *Inula  
racemosa* rhizomes during drying

*V. Agnihotri, A. Jantwal and R. Joshi (India)*

40

Methanol-based  $\gamma$ -aminobutyric acid (GABA)  
production by genetically engineered  
*Bacillus methanolicus* strains

*M. Irla (Germany), I. Nærdal, T. Brautaset  
(Norway) and V.F. Wendisch (Germany)*

12

Bench scale steam explosion pretreatment of  
acid impregnated elephant grass biomass  
and its impacts on biomass composition,  
structure and hydrolysis

*R. Kataria, A. Mol, E. Schulten, A. Happel  
and S.I. Mussatto (The Netherlands)*

48

*(Contents continued on inside back cover)*

Bioethanol production process rheology <i>E. Oropeza-De la Rosa, L.G. López-Ávila, G. Luna-Solano and D. Cantú-Lozano (Mexico)</i>	59	Feasibility of lactate derivative based agent as additive for concrete for regain of crack water tightness by bacterial metabolism <i>R.M. Mors and H.M. Jonkers (The Netherlands)</i>	97
<b>Innovation in Biobased Economy</b>		<b>Sustainability and Biobased Economy</b>	
Alkaline deacetylation as a strategy to improve sugars recovery and ethanol production from rice straw hemicellulose and cellulose <i>R.C.d.A. Castro, B.G. Fonseca, H.T.L. dos Santos, I.S. Ferreira (Brazil), S.I. Mussatto (The Netherlands) and I.C. Roberto (Brazil)</i>	65	Sustainable biorefineries, an analysis of practices for incorporating sustainability in biorefinery design <i>M. Palmeros Parada, P. Osseweijer and J.A. Posada Duque (The Netherlands)</i>	105
Yes, we can make money out of lignin and other bio-based resources <i>F.H.M. Graichen, W.J. Grigsby, S.J. Hill, L.G. Raymond, M. Sanglard, D.A. Smith, G.J. Thorlby, K.M. Torr and J.M. Warnes (New Zealand)</i>	74	The interaction between EU biofuel policy and first- and second-generation biodiesel production <i>C. Boutesteijn, D. Drabik and T.J. Venus (The Netherlands)</i>	124
Purification and concentration of lignin from the spent liquor of the alkaline oxidation of woody biomass through membrane separation technology <i>K. Servaes (Belgium), A. Varhimo (Finland), M. Dubreuil, M. Bulut, P. Vandezande (Belgium), M. Siika-aho, J. Sirviö, K. Kruus (Finland), W. Porto-Carrero and B. Bongers (Belgium)</i>	86	Unraveling Dutch citizens' perceptions on the bio-based economy: The case of bio- plastics, bio-jetfuels and small-scale bio- refineries <i>D.H.J. Lynch, P. Klaassen and J.E.W. Broerse (The Netherlands)</i>	130
		Validation and regulatory acceptance of bio-based approaches to assure feedstock, water & product quality in a bio-based economy <i>H. Besselink, B. Brouwer and B. van der Burg (The Netherlands)</i>	138
