

Agronomy for Sustainable Development

Volume 37 · Number 6 · December 2017

- 53 **Protected cultivation of vegetable crops in sub-Saharan Africa: limits and prospects for smallholders. A review**
T. Nordey · C. Basset-Mens · H. De Bon · T. Martin · E. Déletré · S. Simon · L. Parrot · H. Despretz · J. Huat · Y. Biard · T. Dubois · E. Malézieux
- 54 **Stable nutrient flows in sustainable and alternative cropping systems of globe artichoke**
P.A. Deligios · M.T. Tiloca · L. Sulas · M. Buffa · S. Caraffini · L. Doro · G. Sanna · E. Spanu · E. Spissu · G.R. Urracci · L. Ledda
- 55 **No-till permanent meadow promotes soil carbon sequestration and nitrogen use efficiency at the expense of productivity**
F. Castelli · E. Ceotto · L. Borrelli · G. Cabassi · A. Moschella · D. Fornara
- 56 **Wood vinegar seed priming improves yield and suppresses weeds in dryland direct-seeding rice under rainfed production**
B. Simma · A. Polthanee · A.S. Goggi · B. Siri · A. Promkhambut · P.C. Caragea
- 57 **Enhancing planned and associated biodiversity in French farming systems**
M. Casagrande · L. Alletto · C. Naudin · A. Lenoir · A. Siah · F. Celette
- 58 **Crop rotations and crop residues are relevant parameters for agricultural carbon footprints**
G. Brankatschk · M. Finkbeiner
- 59 **Soil solarization as a sustainable solution to control tomato *Pseudomonads* infections in greenhouses**
I. Castello · A. D'Emilio · M. Raviv · A. Vitale
- 60 **Structural characteristics determine productivity in complex cocoa agroforestry systems**
P. Jagoret · I. Michel · H.T. Ngnogué · P. Lachenaud · D. Snoeck · E. Malézieux
- 61 **High productivity of dry pea genotypes resistant to crenate broomrape in Mediterranean environments**
S. Fondevilla · F. Flores · A.A. Emeran · M. Kharrat · D. Rubiales
- 62 **Targeted cattle grazing as an alternative to herbicides for controlling weeds in bird-friendly oil palm plantations**
K.A. Tohiran · F. Nobilly · R. Zulkifli · T. Maxwell · R. Moslim · B. Azhar
- 63 **Converging and diverging principles and practices of organic agriculture regulations and agroecology. A review**
P. Migliorini · A. Wezel
- 64 **Pressures on soil functions from soil management in Germany. A foresight review**
A.-K. Techen · K. Helming
- 65 **Reduced crop damage by self-regulation of aphids in an ecologically enriched, insecticide-free apple orchard**
F. Cahenzli · L. Pfiffner · C. Daniel
- 66 **Mapping and linking supply- and demand-side measures in climate-smart agriculture. A review**
L. Scherer · P.H. Verburg
- 67 **Psychosocial barriers and facilitators for area-wide management of fruit fly in southeastern Australia**
A. Mankad · B. Loechel · P.F. Measham
- 68 **Referees**
