

PLANT DISEASE RESEARCH

VOLUME 32(1)

CONTENTS

Review Article

- Cotton leaf curl disease: A serious threat to upland cotton 1
Daljeet Singh Buttar and P.S. Sekhon

Fungal Pathology

- Evaluation of components for integrated management of apple replant disease in Himachal Pradesh 15
Narender K. Bharat
- Elicitation of SAR in muskmelon lines against downy mildew caused by *Pseudoperonospora cubensis* 22
Astha, P.S. Sekhon and Parminder Kumar
- Evaluation of bio inoculants fortified lignite fly ash against brown leaf spot and blast diseases of rice in Cauvery delta region of Tamil Nadu 31
D. John Christopher and D. E. Kavi Newton
- Evaluation of *Trichoderma* isolates against *Rhizoctonia solani* and *Rhizoctonia oryzae* causing sheath blight of rice 36
Ahmed I. A. I. Heflish, Narinder Singh, Shiveta Raina and Daljeet Singh Buttar
- Efficacy of plant extracts for suppression of collar rot and web blight pathogen of cowpea under *in vitro* conditions 47
K.P. Aparna and V.K. Girija
- Management of Fusarium wilt with the use of potential bioagents in muskmelon 50
Narinder Pal, Narinder Singh and Daljeet Singh Buttar
- Studies on inheritance of resistance to paddy blast 58
Dimple Rana, Y.S Paul and Rajiv Rathore
- Residual behaviour of carbendazim on cucumber fruits 61
Gagan Jyot, Tania Bansal, Sanjay Kumar Sahoo and Kousik Mandal
- Evaluation of biocontrol agents against *Colletotrichum dematium* inciting fruit rot of papaya 65
H. N. Prajapati and R. K. Patil
- Effect of storage conditions on the production of fumonisins in maize grains 68
Kiranjot Kaur, Jaspal Kaur and Gaganjyot Kaur
- Role of weather variables in the development of Stemphylium blight of garlic 73
Suman Kumar and Shabnam Katoch
- Nutritional and physiological requirements for growth and sclerotial formation of *Sclerotinia sclerotiorum* causing white rot of capsicum 77
Manpreet Kaur, Amarjit Singh and Sandeep Jain

<i>In vitro</i> efficacy of plant extracts and bioagents against <i>Pestalotiopsis versicolor</i> , the incitant of leaf spot of guava in Manipur <i>Y. Herojit Singh, L. Gorvachov Singh, Th. Surjit Singh, Ng. TaibanganbiDevi, S. Monteshori and R.A. Yumlembam</i>	86
---	----

Area under disease progress curve and apparent infection rate of <i>Alternaria</i> blight of marigold incited by <i>Alternaria tagetica</i> at different planting time <i>Mamta, Rajender Singh and Naresh Mehta</i>	91
---	----

Bacteriology

Antagonistic and plant growth promoting potentials of bacteria isolated from different organic manures <i>Ashlesha And Y.S. Paul</i>	97
---	----

Virology

Prevalence of <i>Apple stem grooving virus</i> : biological, serological and molecular studies - An Indian perspective <i>A. Brakta, P. D. Thakur, A. Handa, and U. Sharma</i>	105
---	-----

Comparative antioxidant levels in watermelon genotypes against <i>Cucumber mosaic virus</i> infection <i>Gagandeep Kaur, Neelima Arora, Abhishek Sharma and Dilbag Singh</i>	115
---	-----

Short Communications

Screening of rice genotypes for leaf blast resistance in Himachal Pradesh <i>Sachin Upmanyu</i>	121
--	-----

Sources of resistance to bacterial blight, stem rot and sheath blight of rice <i>S. Sunder and Ram Singh</i>	123
---	-----
