

CONTENTS

Designing neutral landscapes for data scarce regions in West Africa J.N. Inkoom, S. Frank, K. Greve and C. Fürst	1	Mapping critical areas for migratory songbirds using a fusion of remote sensing and distributional modeling techniques R.R. Fern and M.L. Morrison	55
Exploring survival strategies of African Savanna trees by partial ordering techniques U.A. Lenfers, R. Bruggemann and T. Clemen	14	Reconstructing minimal length tree branch systems from leaf positions R. Beyer, D. Bayer, H. Pretzsch and P.-H. Cournède	61
Wilt of <i>Pinus thunbergii</i> induced by a succession of extreme meteorological events F. Wang, W. Zhu, X. Liu, N. Takayama and J. Zhang	24	The contribution of small collections to species distribution modelling: A case study from Fuireneae (Cyperaceae) H.E. Glon, B.W. Heumann, J.R. Carter, J.M. Bartek and A.K. Monfils	67
Using an optimization algorithm to establish a network of video surveillance for the protection of Golden Camellia K. Zhang, Z. Huang and S. Zhang	32	Assessing spatial distribution of <i>Coffea arabica</i> L. in Ethiopia's highlands using species distribution models and geospatial analysis methods B.T. Hailu, M. Siljander, E.E. Maeda and P. Pellikka	79
Wind effects on habitat distributions of wind-dispersed invasive plants across different biomes on a global scale: Assessment using six species J.-Z. Wan, C.-J. Wang and F.-H. Yu	38	Tree loss impacts on ecological connectivity: Developing models for assessment R.C. Henry, S.C.F. Palmer, K. Watts, R.J. Mitchell, N. Atkinson and J.M.J. Travis	90
Consensus methods based on machine learning techniques for marine phytoplankton presence-absence prediction M. Bourel, C. Crisci and A. Martínez	46	Landuse change impact on sub-watersheds prioritization by analytical hierarchy process (AHP) S. Kundu, D. Khare and A. Mondal	100

Identification of evolutionary hotspots in the Poyang Lake Basin based on genetic data from multiple rare and endangered plant species B.-c. Guan, X. Liu, X. Gong and G. Ge	114	Do large forest trees tend towards high species mingling? A. Pommerening and J. Uria-Diez	139
Trajectory analysis of informal Sand Forest harvesting using Markov chain, within Maputaland, Northern KwaZulu-Natal R. Nel, K.F. Mearns and M. Jordaan	121	A metadata reporting framework (FRAMES) for synthesis of ecohydrological observations D.S. Christianson, C. Varadharajan, B. Christoffersen, M. Detto, B. Faybishenko, B.O. Gimenez, V. Hendrix, K.J. Jardine, R. Negron-Juarez, G.Z. Pastorello, T.L. Powell, M. Sandesh, J.M. Warren, B.T. Wolfe, J.Q. Chambers, L.M. Kueppers, N.G. McDowell and D.A. Agarwal	148
A thesaurus for phytoplankton trait-based approaches: Development and applicability I. Rosati, C. Bergami, E. Stanca, L. Roselli, P. Tagliolato, A. Oggioni, N. Fiore, A. Pugnetti, A. Zingone, A. Boggero and A. Basset	129
