

# JOURNAL OF BERRY RESEARCH

Volume 7, Number 4, 2017

## CONTENTS

*H. Kiheri, J. Heinonsalo and S. Timonen*

Staining and microscopy of mycorrhizal fungal colonization  
in preserved ericoid plant roots

231

*M.E. Sosa-Morales, T. Flores-López, D.E. Miranda-Estrada, T.K. Kataria,  
M. del R. Abraham-Juárez, A. Cerón-García, A. Corona-Chávez,  
J.L. Olvera-Cervantes and R. Rojas-Laguna*

Dielectric properties of berries in the microwave range at variable temperature

239

*E. Ivanišová, O. Grygonieva, V. Abrahamová, Z. Schubertova,  
M. Terentjeva and J. Brindza*

Characterization of morphological parameters and biological activity  
of jujube fruit (*Ziziphus jujuba* Mill.)

249

*P. Sette, L. Franceschinis, C. Schebor and D. Salvatori*

Monitoring mechanical, color and anthocyanin changes during rehydration  
of raspberry-based products

261

*D.F. Bridges, A. Breard, A. Lacombe, D.C. Valentine, S. Tadepalli and V.C.H. Wu*  
Inhibition of Tulane Virus replication via exposure to lowbush blueberry  
(*Vaccinium angustifolium*) fractional components

281

*P. Dolkar, D. Dolkar, A. Kant, O.P. Chaurasia and T. Stobdan*

Gender-specific seasonal pattern and altitudinal variation in freeze  
tolerance responses of Seabuckthorn (*Hippophae rhamnoides* L.)

291
