

## **Contents**

---

- 1      **Assessment of heavy metal contamination zones of biota of Western Uttar Pradesh Terrain, India using atomic absorption spectroscopy**  
*Nazia Tarannum, Ranu Agrawal, Rani Yadav, Anjali Yadav and Rakesh Kumar Soni*
- 10     **Analysis of polychlorinated biphenyls treatment present in transformers oils**  
*Kelly Dumorné, Margie Zorrilla Velazco and Petra Velazco Pedroso*
- 22     **Application of combined emergent plants in floating bed for phytoremediation of landscape pond in South China**  
*Peng Huang, Dandan Zhang, Shuang Bai and Songyan Qin*
- 37     **Designing a sustainable municipal solid waste management system in Pathum Thani, Thailand**  
*Sun Olapiriyakul*
- 60     **Analysis of emission models integrated with traffic models for freight transportation study in urban areas**  
*Helry Luvillany Fontenele Dias, Bruno Vieira Bertoncini, Mona Lisa Moura de Oliveira, Francisco Sales Ávila Cavalcante and Ed Pinheiro Lima*
- 78     **Effects of cadmium on growth, short-term photosynthetic acclimation and metal accumulation in radish plants (*Raphanus sativus* L.)**  
*Austin Huy Nguyen, Charles Robert Hoying, Theresa M. Urbina and Philippa Drennan*
- 87     **Ammonia removal from poultry manure leachate via struvite precipitation: a strategy for more efficient anaerobic digestion**  
*Cameron Farrow, Anna Crolla, Chris Kinsley and Ed McBean*
- 101    **Assessing treatment of lead (Pb II) from industrial wastewater on dried bulbs of water hyacinth: adsorption capacity, isotherm and kinetic study**  
*Tiyasha Kanjilal, Chiranjib Bhattacharjee and Siddhartha Datta*
