

PLANT, SOIL AND ENVIRONMENT

Volume 63, No. 10

October 2017

CONTENTS

- Bojarszczuk J., Księżak J., Gałązka A.:
Soil respiration depending on different agricultural practices
before maize sowing 435
- Malá J., Bílková Z., Hrich K., Schrimpelová K., Kriška M., Šereš M.:
Sustainability of denitrifying bioreactors with various fill media 442
- Furtak K., Gawryjołek K., Gajda A.M., Gałązka A.:
Effects of maize and winter wheat grown under different cultivation techniques
on biological activity of soil 449
- Pavlíková D., Zemanová V., Pavlík M.:
The contents of free amino acids and elements in As-hyperaccumulator *Pteris cretica*
and non-hyperaccumulator *Pteris straminea* during reversible senescence 455
- Mamun Hossain S.A.A., Wang L.X., Chen T.T., Li Z.H.:
Leaf area index assessment for tomato and cucumber growing period
under different water treatments 461
- Niu L.A., Hao J.M.:
Impacts of fertilizer application rates on phosphorus dynamics in salt-affected soil 468
- Vogel T., Nelles M., Eichler-Löbermann B.:
Phosphorus effects of recycled products from municipal wastewater
on crops in a field experiment 475
