Landscape indicators – Monitoring of biodiversity and ecosystem services at landscape level U. Walz (Germany) and R.-U. Syrbe (Germany)	1	Using social media photos to explore the relation between cultural ecosystem services and landscape features across five European sites E. Oteros-Rozas (Denmark, Spain), B. Martín-López (Germany), N. Fagerholm (Denmark, Finland), C. Bieling (Germany) and T. Plieninger (Denmark)	74
The optimal biodiversity–A new dimension of landscape assessment E. Bukvareva (Russia)	6		
Landscape sustainability in terms of landscape services in rural areas: Exemplified with a case study area in Poland A. Nowak (Poland) and K. Grunewald (Germany)	12	New high nature value map of Estonian agricultural land: Application of an expert system to integrate biodiversity, landscape and land use management indicators T. Kikas, R.G.H. Bunce, A. Kull and K. Sepp (Estonia)	87
Undervalued and under pressure: A plea for greater attention toward regulating ecosystem services I.J. Sutherland (Canada), A.M. Villamagna (USA), C.O. Dallaire, E.M. Bennett, A.T.M. Chin, A.C.Y. Yeung, K.A. Lamothe, S.A. Tomscha (Canada) and R. Cormier (Germany)	23	Implementing the connectivity of natural areas in cities as an indicator in the City Biodiversity Index (CBI) M.R. Deslauriers, A. Asgary, N. Nazarnia and J.A.G. Jaeger (Canada)	99
Indicators of ecosystem potential for pollination and honey production A.N. Affek (Poland)	33	Corrigendum to: Implementing the connectivity of natural areas in cities as an indicator in the City Biodiversity Index (CBI) M.R. Deslauriers, A. Asgary, N. Nazarnia and J.A.G. Jaeger (Canada)	114
Indicators for a nationwide monitoring of ecosystem services in Germany exemplified by the mitigation of soil erosion by water R.-U. Syrbe, M. Schorcht, K. Grunewald and G. Meinel (Germany)	46	Contribution of connectivity metrics to the assessment of biodiversity – Some methodological considerations to improve landscape planning M. Pietsch (Germany)	116
Indigenous livestock breeds as indicators for cultural ecosystem services: A spatial analysis within the Alpine Space T. Marsoner, L. Egarter Vigl, F. Manck (Italy), G. Jaritz (Austria), U. Tappeiner (Italy, Austria) and E. Tasser (Italy)	55	A spatially explicit patch model of habitat quality, integrating spatio-structural indicators B. Riedler and S. Lang (Austria)	128
Indicator for a monitoring of Germany's landscape attractiveness U. Walz and C. Stein (Germany)	64		

Impact of hydroclimatic variability on regional-scale landscape connectivity across a dynamic dryland region R. Bishop-Taylor, M.G. Tulbure and M. Broich (Australia)	142	Integrated methods for determining restoration priorities of coal mining subsidence areas based on green infrastructure: –A case study in the Xuzhou urban area, of China T. Hu, J. Chang, X. Liu and S. Feng (China)	164
Farmland – an Elephant in the Room of Urban Green Infrastructure? Lessons learned from connectivity analysis in three German cities W. Rolf (Germany), D. Peters (Australia), R. Lenz and S. Pauleit (Germany)	151
