

Table of Contents

M. A. ALMASI: Development of reverse transcription loop mediated isothermal amplification assay for visual detection of Grapevine fleck virus (GFkV)	125
M. J. FERNER, G. MÜLLER, C. SCHUMANN, Y. SHAIKH, P. KAMPEIS, R. ULBER and H. RADDATZ: Immobilisation of glycosidases from commercial preparation on magnetic beads. Part 2: Aroma enhancement in wine using immobilised glycosidases.	129
T. GARDE-CERDÁN, G. GUTIÉRREZ-GAMBOA, R. LÓPEZ, P. RUBIO-BRETÓN and E. P. PÉREZ-ÁLVAREZ: Influence of foliar application of phenylalanine and urea at two doses to vineyards on grape volatile composition and amino acids content	137
M. VENIER, C. B. AGÜERO, A. BERMEJILLO, M. F. FILIPPINI, M. HANANA, M. A. WALKER, E. BLUMWALD and A. M. DANDEKAR: Analysis of salinity tolerance of <i>Vitis vinifera</i> 'Thompson Seedless' transformed with <i>AtNHX1</i>	143
XUTONG ZHANG, PEIJIE GONG, YUANYUAN SHI, YUEJIN WANG and CHAOHONG ZHANG: Genetic inter-relationships among Chinese wild grapes based on SRAP marker analyses.	151
A. BONTEMPO, J. SMITH, M. BRANDT, E. PETERLUNGER and M. STOLL: Evaluation of photosensitive films for light measurements in the fruiting zone of grapevine canopies	159
