Vol. 52 No. 2 2018

REVIEWS

Crop Science

- 91 Genetic Dissection of Agronomic Traits in Introgression Lines and Improvement of an Elite *Indica* Rice Variety Daisuke FUJITA, Yohei KOIDE & Nobuya KOBAYASHI

Agricultural Environment

- 105 Authenticity of the Geographical Origin and Production Methods of Agricultural Products – Application of Element Composition and Stable Isotope Analyses – Akimasa NAKANO & Tiejun ZHAO

Agricultural Engineering

- 115 Agricultural Product Authenticity and Geographical Origin Traceability – Use of Nondestructive Measurement – Tiejun ZHAO & Akimasa NAKANO

Animal Husbandry

- 123 Effect of Pasture Intake on the Profile of Volatile Organic Compounds in Dairy Cow Milk Yasuko UEDA

Information Technology

- 131 Development and Diffusion Strategies of Agricultural Production History Management Systems Atsushi ITOH

Biomass Utilization

- 137 Selection and Development of Stress-tolerant Yeasts for Bioethanol Production Toshihide NAKAMURA & Jun SHIMA

ARTICLES

Horticulture

- 143 Comparison of the Chemical Components of Powdered Green Tea Sold in the US Hideki HORIE, Kaori EMA, Hiroshi NISHIKAWA & Yoriyuki NAKAMURA

Animal Husbandry

- 149 Nucleotide Sequences of Porcine $\alpha 1$ and $\alpha 2$ Chains of Type I Collagen cDNA and Their Different Expression Levels in Tissues Satoshi YANAI, Toshimi MATSUMOTO, Etsumori HARADA & Eiji KOBAYASHI

Contents

- 155 An Estimation for Total Digestible Nutrients in Fresh
Herbage from a Perennial Ryegrass – White Clover
Mixed Pasture
- 163 Effects of Grazing or Exercise in the Middle of the
Fattening Period on the Growth and Carcass Traits of
Japanese Shorthorn Steers
