Vol. 52 No. 3 2018

REVIEWS

Agricultural Environment

- 173 Natural ¹⁵N Abundance Can Aid the Discrimination of Organic and Conventional Rice Mizuhiko NISHIDA

Agricultural Economics

- 181 The Contribution of Agricultural Investments to Food Loss and the World Rice Market in Asian Countries Tatsuji KOIZUMI

Information Technology

- 197 Identification of Paddy Rice Areas Using SAR: Some Case Studies in Japan Naoki ISHITSUKA

ARTICLES

Crop Science

- 205 Controlling Yield and Grain Protein Content of Wheat in Japan through Pre-Anthesis Nitrogen Application to Maximize Producers' Profit S.H.N.P DE SILVA, Taro TAKAHASHI & Kensuke OKADA

Agricultural Environment

- 219 Spatial Variation in Surface Soil Total Carbon and Its Relationship with Soil Color in a River Floodplain Ecosystem of Northern Ghana Keisuke KATSURA, Takenori WATANABE, Naoki MORITSUKA, Yasuhiro TSUJIMOTO, Baba INUSAH, Wilson DOGBE & Masato ODA

Agricultural Engineering

- 229 Effects of Sea Level Rise and Sea Dike Construction on the Downstream End of the Saigon River Basin (Can Gio Bay) Vu Thi Hoai THU, Toshinori TABATA, Kazuaki HIRAMATSU, Trieu Anh NGOC & Masayoshi HARADA
- 241 Effect of Farmers' Water Management on Water Temperature Changes in Paddy Area with Independent Irrigation and Drainage Canal Settings Mami SHIMMURA, Tomoyuki TANIGUCHI, Ryosuke KOTATSU & Atsushi ISHII

Food Science

- 249 Poly- γ -glutamic Acid Production by *Bacillus subtilis* (natto) under High Salt Conditions Sy Le Thanh NGUYEN, Takashi INAOKA & Keitarou KIMURA

Agricultural Economics

- 255 Climate Change Effects on Supply and Demand of Rice in India Chih-min HUNG, Lin ZHOU & Jun FURUYA
- 273 Impact of Participatory Development Projects on Social Capital: Evidence from Farmland Consolidation Projects in Paddy Areas of Japan Taisuke TAKAYAMA & Tomoaki NAKATANI
