#### Editorial

#### Special issue: honey

Norman L Carreck

1

#### Review Articles

#### Composition and properties of *Apis mellifera* honey: A review

Adriane Alexandre Machado De-Melo, Ligia Bicudo de Almeida-Muradian, María Teresa Sancho and Ana Pascual-Maté

5

#### Methods of analysis of honey

Ana Pascual-Maté, Sandra M Osés, Miguel A Fernández-Muiño and M Teresa Sancho

38

#### A review of methods for honey sensory analysis

Gian Luigi Marcazzan, Carla Mucignat-Caretta, Carla Marina Marchese and Maria Lucia Piana

75

#### Legislation of honey criteria and standards

Andreas Thrasyvoulou, Chrysoula Tananaki, Georgios Goras, Emmanouel Karazafiris, Maria Dimou, Vasilis Liolios, Dimitris Kanelis and Sofia Gounari

88

#### Residues of antibiotics and chemotherapeutics in honey

Wim Reybroeck

97

#### Honey as medicine: historical perspectives

Andrzej K. Kuropatnicki, Małgorzata Klósek and Marek Kucharzewski

113

#### Original Research Articles

#### Analysis of floral nectar characteristics of Korean and Chinese hawthorns

#### (*Crataegus pinnatifida* Bunge)

Sea-Hyun Kim, Andosung Lee, Daebong Kang, Hae Yun Kwon, Youngki Park and Moon Sup Kim

119

#### Honey production of the “uruçu-cinzenta” stingless bee (*Melipona fasciculata*) after offering cerumen in natural form or as artificially made pots

Giorgio Cristino Venturieri, Kamila Leão Leão, Elisângela de Sousa Rêgo and Giorgini Augusto Venturieri

129

#### Evaluation of the physicochemical parameters and inorganic constituents of honeys from the Amazon region

Michelle S Lemos, Giorgio C Venturieri, Heronides A Dantas Filho and Kelly G F Dantas

135

#### Classification of Colombian honeys by electronic nose and physical-chemical parameters, using neural networks and genetic algorithms

Carlos Mario Zuluaga-Domínguez, Andrea Nieto-Velozá and Marta Quicazán-de-Cuenca

145

(Continued from outside back cover)

**Preliminary characterization of a Moroccan honey with a predominance of *Bupleurum spinosum* pollen**

Youssef Elamine, Smail Aazza, Badiâa Lyoussi, Maria Dulce Antunes, Leticia M Estevinho, Ofélia Anjos, Mafalda Resende, Maria Leonor Faleiro and Maria Graça Miguel

153

**Characterization of *Ziziphus lotus* (jujube) honey produced in Algeria**

Salim Zerrouk, María Carmen Seijo, Olga Escuredo and María Shantal Rodríguez-Flores

166

**Physicochemical analysis and determination of di- and tri-saccharide content in Longan, Litchi and Siam weed honeys of Thailand**

Penpun Wetwitayaklung, Worrakanya Narakornwit, Lawan Sratthaphut and Bunyapa Wangwattana

175

**Investigating the antibacterial action of Corsican honeys on nosocomial and foodborne pathogens**

Jean-Pierre Poli, Elodie Guinoiseau, Anne Luciani, Yin Yang, Marie-José Battesti, Julien Paolini, Jean Costa, Liliane Berti and Vannina Lorenzi

186
