

CONTENTS

<i>J. Zhang, B. Zuo, N.P. Ulrich, P.K. Sengupta, X. Zheng and J. Xiao</i> Structure-affinity relationship of dietary anthocyanin–HSA interaction	1
<i>Á. Luís, S. Sousa, A.P. Duarte, L. Pereira and F. Domingues</i> Phytochemical characterization, and evaluation of rheological and antioxidant properties of commercially available juices of berries	11
<i>M. Khayyat, Z. Barati, M.H. Aminifard and A. Samadzadeh</i> Changes in fruit maturity indices and growth pattern along the harvest season in seedless barberry under different altitude conditions	25
<i>A.A. Erst, A.B. Gorbunov and A.S. Erst</i> Effect of concentration, method of auxin application and cultivation conditions on <i>in vitro</i> rooting of bog blueberry (<i>Vaccinium uliginosum</i> L.)	41
<i>F. Blando, C. Gerardi, M. Renna, S. Castellano and F. Serio</i> Characterisation of bioactive compounds in berries from plants grown under innovative photovoltaic greenhouses	55
<i>M. Rezaie, A. Saboori and V. Baniameri</i> The effect of strawberry cultivars, infested with <i>Tetranychus urticae</i> (Acari: Tetranychidae), on the olfactory response of the predatory mite <i>Neoseiulus californicus</i> (Acari: Phytoseiidae)	71
