

COMMENTARY

Biocontrol of plant diseases is not an unsafe technology!

E. Koch · J. Ole Becker · G. Berg · R. Hauschild ·
J. Jehle · J. Köhl · K. Smalla 121

Putting concerns for caution into perspective: microbial plant protection products are safe to use in agriculture

B. Lugtenberg 127

REPLY TO COMMENTARY

Revisiting wishful thinking: the need of molecular tools to accurately assess the risks associated with microbial biocontrol agents

H.B. Deising 131

REVIEWS

Antifungal properties of essential oils against anthracnose disease: a critical appraisal

A. Kumar · V.B. Kudachikar 133

Genes responsible for powdery mildew resistance and improvement in wheat using molecular marker-assisted selection

L. Shah · S. Rehman · A. Ali · M. Yahya · M.W. Riaz ·
H. Si · C. Ma · J. Lu 145
