Notes from the field: the value of observational data and natural history

A. Chin 1

RESEARCH PAPERS

Herbicidal control of bridal creeper (*Asparagus asparagoides*) in an ecologically sensitive environment

M. Jusaitis 3

Predicting the occurrence of an endangered reptile based on habitat attributes

S. Gorissen, I. R. C. Baird, M. Greenlees, A. N. Sherieff and R. Shine 12

Diets of native and introduced apex predators in Hawai'i

C. S. Mostello and S. Conant 25

Conservation value of koa (*Acacia koa*) reforestation areas on Hawaii Island

L. Strommer and S. Conant 35

Coyote diet patterns in the Mojave Desert: implications for threatened desert tortoises

B. L. Cypher, E. C. Kelly, T. L. Westall and C. L. Van Horn Job 44

Forest connectivity is important for sustaining Admiralty cuscus (*Spilocuscus kraemeri*) in traditional terrestrial no-take areas on Manus Island, Papua New Guinea

J. Lamarin and N. Whitmore 55

Quantifying trends and predictors of decline in eastern grey kangaroo (*Macropus giganteus*) populations in a rapidly urbanising landscape

E. A. Brunton, S. K. Srivastava, D. S. Schoeman and S. Burnett 63

Foraging behaviour of mulga birds in Western Australia. I. Use of resources and temporal effects

H. F. Recher and W. E. Davis, Jr 74

Foraging behaviour of mulga birds in Western Australia. II. Community structure and conservation

H. F. Recher 87

RESEARCH NOTE

Are there conservation implications for kangaroos feeding on sea birds?

M. Hughes and V. Bérengier 98
