

BioControl

Journal of the International Organization for Biological Control

Volume 63 · Number 2 · April 2018

REVIEW

Feasibility assessment for the classical biological control of *Tamarix* in Argentina

F. Mc Kay · G. Logarzo · E. Natale · A. Sosa · G.C. Walsh · P.D. Pratt · C. Sodergren 169

ORIGINAL ARTICLES

Effect of population density of the Azolla weevil (*Stenopelmus rufinasus*) on the surface cover of the water fern (*Azolla filiculoides*) in the UK

R.H. Reeder · E.T.G. Bacon · M.J. Caiden · R.J. Bullock · P. González-Moreno 185

Development of *Cleruchoides noackae*, an egg-parasitoid of *Thaumastocoris peregrinus*, in eggs laid on different substrates, with different ages and post-cold storage

L.R. Barbosa · Â.P. Rodrigues · L.N. de Souza · L.A. Foerster · A.R. de Souza · B.M. de Castro e Castro · C.F. Wilcken · J.C. Zanuncio 193

Biological activity and specificity of Miridae-induced plant volatiles

M. Pérez-Hedo · J.L. Rambla · A. Granell · A. Urbaneja 203

Biocontrol of *Cameraria ohridella* by insectivorous birds in different landscape contexts

S. Mösch · E.J. Eilers · M. Hommes 215

Bactrocera oleae pupae predation by *Ocybus olens* detected by molecular gut content analysis

A. Albertini · S. Marchi · C. Ratti · G. Burgio · R. Petacchi · S. Magagnoli 227

Life cycle of *Harmonia axyridis* in central Europe

A. Honek · Z. Martinkova · A.F.G. Dixon · J. Skuhrovec · H.E. Roy · M. Brabec · S. Pekar 241

Species complementarity in two myrmecophilous lady beetle species in a coffee agroecosystem: implications for biological control

A. Iverson · D. Jackson · R. Burnham · I. Perfecto · N. Vandenberg · J. Vandermeer 253

Effects of agricultural practices and fine-scale landscape factors on spiders and a pest insect in Japanese rice paddy ecosystems

Y.G. Baba · Y. Kusumoto · K. Tanaka 265

Lecanicillium muscarium and *Adalia bipunctata* combination for the control of black bean aphid, *Aphis fabae*

A.A. Mohammed 277

Comparison of the methods applicable for the pathogenicity assessment of entomopathogenic nematodes

W. Kazimierczak · M. Lis · T. Skrzypek · A. Kreft 289

A multi-criteria approach for the selection of efficient biocontrol agents against *Botrytis cinerea* on tomato in Algeria
