

**Genetics, Animal Genetic Resources and Breeding***Original research articles*

- Genomic regions associated with performance in racing line of Quarter Horses  
G.L. Pereira, L.A. Chardulo, J.A.IV. Silva, R. Faria and R.A. Curi 42
- Genetic association between mature weight and early growth and heifer pregnancy traits in Nellore cattle  
B.C. Abreu Silva, J.P. Eler, M.L. Santana Jr., E.C. Mattos, I.R. Menezes and J.B.S. Ferraz 61
- Benchmarking Bayesian genome enabled-prediction models for age at first calving in Nellore cows  
R.R. Mota, F.F. e Silva, S.E.F. Guimarães, B. Hayes, M.R.S. Fortes, M.J. Kelly, J.D. Guimarães, J.M. Penitente-Filho, H.T. Ventura and S. Moore 75
- A whole-genome association study for litter size and litter weight traits in pigs  
S. Metodiev, D.M. Thekkoot, J.M. Young, S. Onteru, M.F. Rothschild and J.C.M. Dekkers 87
- Access to outdoor swimming pond during summer season improved Muscovy ducks performance and health status  
M.F.A. Farghly and U.T. Mahmoud 98
- Age-related changes of bone ultrasound measurements and metabolic indicators in the young horse  
M.J. Fradinho, L. Mateus, R.J.B. Bessa, R.M. Caldeira and G. Ferreira-Dias 104
- Non-Ruminant Nutrition**  
*Original research articles*
- Comparative nutrient digestibility in different ingredients fed to Duroc x Landrace xYorkshire and Duroc x Berkshire x Jiaxing growing barrows  
J.B. Zhao, G. Zhang, L. Liu, Y.Q. Chen, A.M. Jin, G.L. Liu, K.Z. Li, D.F. Li and S. Zhang 1
- Long term differentiated phosphorus supply from below to above requirement affects nutrient balance and retention, body weight gain and bone growth in growing-finishing pigs  
K.U. Sørensen, A.-H. Tauson and H.D. Poulsen 14

**Livestock Farming Systems and Management***Original research articles*

- The economic value of information provided by milk biomarkers under different scenarios: Case-study of an ex-ante analysis of fat-to-protein ratio and fatty acid profile to detect subacute ruminal acidosis in dairy cows  
C. Rojo-Gimeno, V. Fievez and E. Wauters 30
- Expected value of crossbred dairy cattle artificial insemination breeding strategies in virgin heifers and lactating cows  
J.A. Barrientos-Blanco, N.M. Thompson, N.J.O. Widmar, C.A. Wolf and L. Unruh Snyder 66
- Physiology**  
*Original research articles*
- Blood biochemical parameters of bone metabolism in cows and calves kept in a beef suckler system during the early postpartum period  
L. Vranković, J. Aladrović, B.B. Ljubić, I. Pipal, N. Prvanović-Babić, T. Mašek and Z. Stojević 8
- Effects of perilla frutescens seed supplemented to diet on fatty acid composition and lipogenic gene expression in muscle and liver of Hu lambs  
K. Deng, T. Ma, Z. Wang, W. TanTai, H. Nie, Y. Guo, F. Wang and Y. Fan 21
- Effect of lipid sources on fatty acid profiles of meat from pasture- and feedlot-finished Nellore bulls  
G. Fiorentini, M.O. Santana, J.D. Messina, A.L.S. Valente, C.J. Härter, C.H.S. Rabelo, R.P. Barbero, D.P.D. Lanna, R.A. Reis and T.T. Berchielli 52
- Bamboo vinegar powder supplementation improves the antioxidant ability of the liver in finishing pigs  
L. Yu, Z. Peng, L. Dong, S. Wang, L. Ding, Y. Huo and H. Wang 80
