Volume 26 Number 1 2018

ARTICLES

- Soil pH Buffering Capacity and Nitrogen Availability Following Compost Application in a Tropical Acid Soil
Omar Latifah, Osumanu Haruna Ahmed, and Nik Muhamad Abdul Majid 1
- Evolution of Organic Matter Within Sixty Days of Composting of Lignocellulosic Food Industry Waste in Malaysia
P. S. H'ng, E. W. Chai, K. L. Chin, S. H. Peng, W. M. Wan-Azha, I. Halimatun, W. Z. Go, P. S. Khoo, C. L. Lee, R. A. Raja-Nazrin, and S. N. Ashikin 16
- Influence of Manure Type and Bedding Material on Carbon Content of Particulate Organic Matter in Feedlot Amendments Using ^{13}C NMR-DPMAS
Jim Miller, Paul Hazendonk, and Craig Drury 27
- Fingerprint of Exhaust Gases and Database of Microbial Diversity During Silkworm Excrement Composting
Li Li, Sentai Liao, Weiming Li, Dongxu Xing, Guoqing Luo, Qingrong Li, Mingqiang Ye, Yang Xiao, and Qiong Yang 40
- Effect of Vermicompost in Media on Growth, Yield and Fruit Quality of Cherry Tomato (*Lycopersicon esculentum* Mill.) Under Net House Conditions
Ha Duy Truong, Chong Ho Wang, and Tran Trung Kien 52
- Feedstock Carbon Influence on Compost Biochemical Stability and Maturity
Vidya de Gannes, Gaius Eudoxie, and William J. Hickey 59
