Note of appreciation

iii–iv Note of appreciation

Articles

- | | | |
|-------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1–8 | Dynamics of acute phase proteins in dairy cows with subclinical hypocalcemia | J.O. Feijó, R.A. Pereira, P. Montagner, F.A.B. Del Pino, E. Schmitt, and M.N. Corrêa |
| 9–17 | Effect of moderate alterations of dietary protein or lysine on indices of lysine metabolism in liver, kidney, and heart of growing pigs | S.K. Gatrell, L.E. Berg, J.G. Grimmett, J.S. Moritz, and K.P. Blemings |
| 18–31 | Profitability measures as decision-making tools for Québec dairy herds | H.A. Delgado, R.I. Cue, D. Haine, A. Sewalem, R. Lacroix, D. Lefebvre, J. Dubuc, E. Bouchard, and K.M. Wade |
| 32–43 | Characteristics of carcass and meat of heifers finished on pasture amended with different supplement frequency and soybean oil source | Márcia C.A. Santana, Juliana D. Messana, Giovani Fiorentini, Josiane F. Lage, Paulo H.M. Dian, Roberta C. Canesin, Ricardo A. Reis, and Telma T. Berchielli |
| 44–52 | <i>Cordyceps militaris</i> hot water extract inhibits lipopolysaccharide-induced inflammatory response in porcine alveolar macrophages by the regulation of mitogen-activated protein kinase signaling pathway | Felix Shih-Hsiang Hsiao, Yeong-Hsiang Cheng, Szu-Kai Wang, and Yu-Hsiang Yu |
| 53–60 | Validation of the first objective evaluation system for beef carcasses | Karolina Wnęk, Marcin Gołębiewski, and Tomasz Przysucha |

61–72	Utility of an in vitro test with rumen fluid from slaughtered cattle for capturing variation in methane emission potential between cattle types and with age	Shaopu Wang, Jana Písarčíková, Michael Kreuzer, and Angela Schwarm
73–83	Modelling lactation curves of dairy goats by fitting random regression models using Legendre polynomials or B-splines	L.F. Brito, F.G. Silva, H.R. Oliveira, N.O. Souza, G.C. Caetano, E.V. Costa, G.R.O. Menezes, A.L.P. Melo, M.T. Rodrigues, and R.A. Torres
84–97	Variation in fur farm and wild populations of the red fox, <i>Vulpes vulpes</i> (Carnivora: Canidae) — Part II: Craniometry	Magdalena Zatoń-Dobrowolska, Magdalena Moska, Anna Mucha, Heliodor Wierzbicki, and Maciej Dobrowolski
98–108	Response of Ross 308 and 708 broiler strains in growth performance and lipid metabolism to diets containing tributyrates glycerides	Andrea Bedford, Hai Yu, Marta Hernandez, E. James Squires, Steven Leeson, Yongqing Hou, and Joshua Gong
109–118	By-product of passion fruit seed (<i>Passiflora edulis</i>) in the diet of broilers	Leonardo Henrique Zanetti, Alice Eiko Murakami, Mayra Diaz-Vargas, Ana Flávia Quiles Garcia Guerra, Ivan Camilo Ospina-Rojas, Guilherme Rodrigues do Nascimento, Tatiana Carlesso dos Santos, and Paula Toshimi Matumoto Pinto
119–125	Effect of dietary supplementation of silicic acid powder containing bamboo vinegar on production performance, egg quality, intestinal microflora, and morphology of laying hens	Jessada Rattanawut, Areerat Todsadee, and Koh-en Yamauchi
126–134	Influence of <i>Enterococcus faecium</i> and endo-1,4- β -xylanase supplementation on growth performance, nutrient digestibility, fecal microflora, fecal gas emission, and meat quality in finishing pigs fed with diets based on corn–soybean meal	D.H. Nguyen, K.Y. Lee, H.N. Tran, S.D. Upadhaya, Y.J. Jeong, and I.H. Kim
135–143	Intake and digestibility of sheep-fed alfalfa haylage supplemented with corn	Marina Vranić, Darko Grbeša, Krešimir Bošnjak, Tomislav Mašek, and Dario Jareš
144–155	Effects of alanyl-glutamine supplementation on the small intestinal mucosa barrier in weaned piglets challenged with lipopolysaccharide	S. Xing, B.L. Zhang, M. Lin, J.L. Li, L. Zhang, F. Gao, and G.H. Zhou
156–165	Effects of level of barley and corn in concentrate-fed Boer kids on growth performance, meat quality, and muscle fatty acid composition	M.-E. Brassard, P.Y. Chouinard, R. Gervais, É. Pouliot, C. Gariépy, and D. Cinq-Mars
166–176	Effect of growth-promoting implants and high-voltage electrical stimulation on quality characteristics of finished steers	Ó. López-Campos, W.M. Robertson, M.E.R. Dugan, I.L. Larsen, J.C. Roberts, and J.L. Aalhus
177–186	Evaluation of barley silage with varying ruminal in vitro fiber digestibility on lactation performance and chewing activity of lactating dairy cows in comparison with corn silage	Basim Refat, David A. Christensen, John J. Mckinnon, Luciana L. Prates, Jayakrishnan Nair, Aaron D. Beattie, Wenzhu Yang, Tim A. McAllister, and Peiqiang Yu

187–193	An evaluation of natural and synthetic vitamin E supplementation on growth performance and antioxidant capacity of broilers in early age	Kang Cheng, Min Zhang, Xianxiao Huang, Xiaochuan Zheng, Zhihua Song, Lili Zhang, and Tian Wang
194–203	True phosphorus digestibility of camelina meal in broiler chickens	A.Y. Pekel, S.A. Adedokun, and O. Adeola
204–212	Comparative analysis of tissue expression and methylation reveals the crucial hypoxia genes in hypoxia-resistant animals	Yong Wang, Meirong Luo, Mingfeng Jiang, Yaqiu Lin, and Jiangjiang Zhu
