

## CONTENTS

|  |    |   |
|--|----|---|
| Re-evaluating the role of bacteria in gerbera vase life<br>R.E. Schouten, J.C. Verdonk and U. van Meeteren<br>(The Netherlands)  |    |   |
| Genome-wide identification and expression analyses<br>of the calmodulin and calmodulin-like proteins<br>reveal their involvement in stress response and fruit<br>ripening in papaya<br>X. Ding, L. Zhang, Y. Hao, S. Xiao, Z. Wu, W. Chen,<br>X. Li and X. Zhu (China) | 1  | Quality assessment of tomato fruit by optical absorption<br>and scattering properties<br>Y. Huang (China, USA), R. Lu (USA), D. Hu<br>(USA, China) and K. Chen (China) 78   |
| Effects of epigallocatechin-3-gallate (EGCG) on skin<br>greasiness and related gene expression in 'Jonagold'<br>apple fruit during ambient storage<br>D. Yan, Y. Yang, C. Wang, Y. Qi, C. Liu, B. Zhou and<br>X. Ren (China)   | 13 | Alleviation of effects of exogenous ethylene on cut 'Master'<br>carnation flowers with nano-silver and silver thiosulfate<br>J. Liu, Z. Zhang, H. Li, X. Lin, S. Lin (PR China),<br>D.C. Joyce (Australia) and S. He (PR China) 86  |
| L-Cysteine hydrochloride delays senescence of<br>harvested longan fruit in relation to modification of<br>redox status<br>T. Li, Q. Wu, Y. Zhou, Z. Yun, X. Duan and Y. Jiang<br>(China)   | 28 | Assessment of vase quality and transcriptional<br>regulation of sucrose transporter and invertase genes<br>in cut peony ( <i>Paeonia lactiflora</i> 'Yang Fei Chu Yu')<br>treated by exogenous sucrose<br>J. Xue, Y. Tang, S. Wang, R. Yang, Y. Xue, C. Wu and<br>X. Zhang (China) 92 |
| Development of antibrowning and antimicrobial<br>formulations to minimize <i>Listeria monocytogenes</i><br>contamination and inhibit browning of fresh-cut<br>"Granny Smith" apples<br>X. Fan, K. Sokorai and J. Phillips (USA)  | 35 | Postharvest quality of plums in response to the<br>occurrence of leaf scald disease<br>H.T. Kleina, T. Pádua, A.P. Jacomino and<br>L.L. May De Mio (Brazil) 102   |
| Prolonged preservation of tangerine fruits using<br>chitosan/montmorillonite composite coating<br>D. Xu, H. Qin and D. Ren (China)   | 43 | SSC and pH for sweet assessment and maturity<br>classification of harvested cherry fruit based on NIR<br>hyperspectral imaging technology<br>X. Li, Y. Wei, J. Xu, X. Feng, F. Wu, R. Zhou, J. Jin,<br>K. Xu, X. Yu and Y. He (China) 112   |
| Factors contributing to increased bruise expression in<br>avocado ( <i>Persea americana</i> M.) cv. 'Hass' fruit<br>M. Mazhar, D. Joyce, P. Hofman and N. Vu<br>(Australia)  | 43 | Non-destructive recognition and classification of citrus<br>fruit blemishes based on ant colony optimized<br>spectral information<br>Y. Zhang (China, United States), W.S. Lee<br>(United States), M. Li, L. Zheng (China) and<br>M.A. Ritenour (United States) 119                   |
| Genome-wide identification and comparative analysis<br>of the superoxide dismutase gene family in pear and<br>their functions during fruit ripening<br>L. Wang, L. Wang, Z. Zhang, M. Ma, R. Wang, M. Qian<br>and S. Zhang (China)                                     | 50 | Genetic and phenotypic correlation for breeding relevant<br>traits in <i>Dianthus caryophyllus</i> L.<br>M. Boxriker, J. Möhring and H.-P. Piepho (Germany) 129   |
|  | 58 | 6-Benzylaminopurine improves the quality of harvested<br>litchi fruit<br>D. Zhang, X. Xu, Z. Zhang, G. Jiang, L. Feng, X. Duan<br>and Y. Jiang (China) 137  |
|  | 68 |   |
