

Letter to the editor regarding: Julian P, 2016. Assessment of Upper Taylor Slough water quality and implications for ecosystem management in Everglades National Park, Wetlands Ecology and Management, DOI 10.1007/s11273-016-9509-0038
D. Surratt · D. Shinde · Y. Wan · J. Castro · W. Walker · R. Kadlec · J. Sadle 245

Letter to the Editor regarding Surratt D, Shindle D, Yongshan W, et al. Letter to the Editor regarding: Julian P, 2017. Assessment of Upper Taylor Slough water quality and implications for ecosystem management in Everglades National Park
P. Julian II 249

ORIGINAL PAPERS

The use of a GIS-based multi-criteria evaluation technique for the development of a zoning plan for a seasonally variable Ramsar wetland site in Syria: Sabkhat Al-Jabboul
N. Boulad · N. Hamidan 253

The value of wetlands for water quality improvement: an example from the St. Johns River watershed, Florida
S. Widney · A. Kanabrocki Klein · J. Ehman · C. Hackney · C. Craft 265

Effects of water depth and substrate type on rhizome bud sprouting and growth in *Zizania latifolia*
Z. Li · X. Zhang · A. Wan · H. Wang · J. Xie 277

The role of environmental factors in the composition of anuran species in several ponds under the influence of coal mining in southern Brazil
G.S. De Lucca · F.A.P. Barros · J.V. Oliveira · J. Dal Magro · E.M. Lucas 285

Detecting soil and plant community changes in restored wetlands using a chronosequence approach
J. Brown · M.D. Norris 299

Does National Wetland Inventory class consistently identify vegetation and edaphic differences in Oregon tidal wetlands?
C.N. Janousek · C.L. Folger 315

Arrowhead (*Sagittaria cuneata*) as a bioindicator of nitrogen and phosphorus for prairie streams and wetlands
K.M. Standen · P.A. Chambers · J.M. Culp 331

Particulate organic carbon is a sensitive indicator of soil degradation related to overgrazing in Patagonian wet and mesic meadows
A.S. Enriquez · M.V. Cremona 345

Predicted risks of groundwater decline in seasonal wetland plant communities depend on basin morphology
D.C. Deane · C. Harding · K.T. Aldridge · A.M. Goodman · S.L. Gehrig · J.M. Nicol · J.D. Brookes 359

Vegetation development after a large scale restoration of species-rich grasslands in a Central European floodplain
D. Galvánek · J. Ripka 373

Swimming abilities of juvenile estuarine fishes: implications for passage at water control structures
M.E. Kimball · K.M. Boswell · L.P. Rozas · E.K. Berwaldt · A.R. Richards 383

How important are aquatic predators to mosquito larval populations in natural wetlands? A case study from Carolina bays in Georgia
D.P. Batzer · K.M. Murray 391

Assessment of mangrove management alternatives in village-fringe forests of Indian Sunderbans: resilient initiatives or short-term nature exploitations?
D. Datta 399

High heterotrophic CO₂ emissions from a Malaysian oil palm plantations during dry-season

M. Matysek · S. Evers · M.K. Samuel · S. Sjogersten 415

Microbial coenzyme stoichiometry, nutrient limitation, and organic matter decomposition in wetlands of the conterminous United States

B.H. Hill · C.M. Elonen · A.T. Herlihy · T.M. Jicha · G. Serenbetz 425

The classification of wetlands: integration of top-down and bottom-up approaches and their significance for ecosystem service determination

E.J.J. Sieben · S.P. Khubeka · S. Sithole · N.M. Job · D.C. Kotze 441

Impact of nitrogen and importance of silicon on mechanical stem strength in *Schoenoplectus acutus* and *Schoenoplectus californicus*: applications for restoration

T.M. Sloey · M.W. Hester 459
