

Genetics, Animal Genetic Resources and Breeding*Original research articles*

- Prediction of functional metagenomic composition using archived 16S rDNA sequence data from the gut microbiota of livestock
B. Avila-Jaime, J.R. Kawas and J.F. Garcia-Mazcorro 28

- Genome-wide association study for carcass traits in a composite beef cattle breed
E.H. Hay and A. Roberts 35

- Genetic parameters and accuracy of traditional and genomic breeding values for eye pigmentation, hair coat and breed standard in Hereford and Braford cattle
F.A. Reimann, A.A. Boligon, G.S. Campos, L.L. Cardoso, V.S. Junqueira and F.F. Cardoso 44

- Heterogeneity of variance for milk, fat and protein yield in small cattle populations: The Rendena breed as a case study
N. Guzzo, C. Sartori and R. Mantovani 54

Short communication

- Source of variation of hematology and blood biochemical profiles of Holstein Friesian bulls in performance test
B. Contiero, F. Gottardo, M. Cassandro, G. Bertoli, L. Cestaro and A.L. Stefani 51

Behaviour, Health and Welfare*Original research articles*

- Use of different wood types as environmental enrichment to manage tail biting in docked pigs in a commercial fully-slatted system
J.-Y. Chou, R.B. D'Eath, D.A. Sandercock, N. Waran, A. Haigh and K. O'Driscoll 19

Livestock Farming Systems and Management*Original research articles*

- Relationship between serum magnesium concentration during the transition period, peri- and postpartum disorders, and reproductive performance in dairy cows
J.K. Jeong, I.S. Choi, S.H. Moon, H.G. Kang and I.H. Kim 1

Physiology*Original research articles*

- Size matters: Boar taint in relationship with body composition and testis volume measured by magnetic resonance imaging
M. Bernau, S. Schwanitz, P.V. Kremer-Rücker, L.S. Kreuzer and A.M. Scholz 7

Reproduction Physiology*Original research articles*

- Associations between serum haptoglobin concentration and peri- and postpartum disorders, milk yield, and reproductive performance in dairy cows
D.H. Shin, J.K. Jeong, I.S. Choi, S.H. Moon, S.C. Lee, H.G. Kang, S.B. Park and I.H. Kim 14

- Survival analysis and seasonal patterns of pregnancy outcomes in Egyptian buffaloes
M.S. El-Tarabany 61
