

# JOURNAL OF THE AMERICAN SOCIETY FOR HORTICULTURAL SCIENCE

VOL. 143, NO. 3

CONTENTS

MAY 2018

- 167 Characterization of the p3-VvAGL11 Marker for Stenospermocarpic Seedlessness in *Euvitis* × *Muscadinia* Grape Hybrid Progenies  
Patrick J. Conner, Gunawati Gunawan, and John R. Clark
- 173 Variation in Cytosine Methylation among Pecan Cultivars at Different Developmental Stages  
Zhuang-Zhuang Liu, Tao Chen, Fang-Ren Peng, You-Wang Liang, Peng-Peng Tan, Zheng-Hai Mo, Fan Cao, Yang-Juan Shang, Rui Zhang, and Yong-Rong Li
- 184 Relationship between Pigment Composition and Peel Color for the Fruit of Chinese Flame Tree  
Yiguang Wang, Chao Zhang, Bin Dong, Yaohui Huang, Zhiyi Bao, and Hongbo Zhao
- 194 RNA-sequencing Analysis Identifies Genes Associated with Chilling-mediated Endodormancy Release in Apple  
Takanori Takeuchi, Miwako Cecile Matsushita, Soichiro Nishiyama, Hisayo Yamane, Kiyoshi Banno, and Ryutaro Tao
- 207 Proteins Involved in Energy Metabolism and Oxidative Regulation Associated with Genotypic Variations in Drought Tolerance for Tall Fescue  
Jianming Sun, Yiming Liu, Xianglin Li, and Bingru Huang
- 213 Fruit Load Limits Root Growth, Summer Vegetative Shoot Development, and Flowering in Alternate-bearing 'Nadorcott' Mandarin Trees  
Ockert P.J. Stander, Graham H. Barry, and Paul J.R. Cronjé
- 226 In Vitro Variation of Drought Tolerance in Five *Actinidia* Species  
Yun-Peng Zhong, Zhi Li, Dan-Feng Bai, Xiu-Juan Qi, Jin-Yong Chen, Cui-Guo Wei, Miao-Miao Lin, and Jin-Bao Fang
