

Volume 83 Issue 4  
August 2018

Aspects still to solve for the management of kiwifruit bacterial canker  
caused by *Pseudomonas syringae* pv. *actinidiae* biovar 3

**Thematic Issue**

M. Scortichini

, 205

Identification of the basic leucine zipper transcription factor and analysis of expression  
responses to biotic and abiotic stresses in kiwifruit (*Actinidia* Lindl.)

**Thematic Issue**

Zhaobin Jing Hongqi Fu

, 212

Kiwifruit *SVP2*, a dormancy regulator

**Thematic Issue**

Rongmei Wu

, 231

Sex-linked molecular markers for two cold-hardy kiwifruit species, *Actinidia arguta* and  
*A. kolomikta*

**Thematic Issue**

I. Hale A.T.O. Melo H. Gustafson

, 236

Seasonal changes in leaf nutrient concentration of male and female hardy kiwifruit  
grown in Oregon

**Thematic Issue**

A.J. Vance B.C. Strik

, 247

Neural networks models as decision-making tool for in vitro proliferation of hardy kiwi

**Thematic Issue**

T.A. Arteta R. Hameg M. Landin P.P. Gallego M.E. Barreal

, 259
