

# TRENDS IN FOOD SCIENCE & TECHNOLOGY

## REVIEWS

- Therapeutic potentials and compositional changes of valuable compounds from banana- A review** by Sadia Qamar and Azizuddin Shaikh 1
- Review of the composition and current utilization of *Calanus finmarchicus* – Possibilities for human consumption** by Stefán Th Eysteinnsson, María Gudjónsdóttir, Sigrún H. Jónasdóttir and Sigurjón Arason 10
- Cyclodextrin-assisted extraction of phenolic compounds: Current research and future prospects** by Rui Cai, Yahong Yuan, Lu Cui, Zhouli Wang and Tianli Yue 19
- Vegetarianism during pregnancy: Risks and benefits** by J. Costa-Rodrigues, Rute Sá-Azevedo, João Balinha and Graça Ferro 28
- A recent review of citrus flavanone naringenin on metabolic diseases and its potential sources for high yield-production** by Naymul Karim, Zhenquan Jia, Xiaodong Zheng, Sunliang Cui and Wei Chen 35
- Biochanin A: A phytoestrogen with therapeutic potential** by Shikha Raheja, Amit Girdhar, Viney Lather and Deepti Pandita 55
- Recent development of lactoferrin-based vehicles for the delivery of bioactive compounds: Complexes, emulsions, and nanoparticles** by Fuguo Liu, Shuhan Zhang, Junyi Li, David Julian McClements and Xuebo Liu 67

<b>Rye and health - Where do we stand and where do we go?</b> by Karin Jonsson, Roger Andersson, Knud Erik Bach Knudsen, Göran Hallmans, Kati Hanhineva, Kati Katina, Marjukka Kolehmainen, Cecilie Kyrø, Maud Langton, Emilia Nordlund, Helle Nygaard Lærke, Anja Olsen, Kajsa Poutanen, Anne Tjønneland and Rikard Landberg	78
<b><i>Centella asiatica (Gotu kola)</i> as a neuroprotectant and its potential role in healthy ageing</b> by Rasangani Sabaragamuwa, Conrad O. Perera and Bruno Fedrizzi	88
<b>Phenols recovered from olive mill wastewater as additives in meat products</b> by Charis M. Galanakis	98
<b>Nanoliposome technology for the food and nutraceutical industries</b> by S. Khorasani, M. Danaei and M.R. Mozafari	106
<b>New insights on bioactivities and biosynthesis of flavonoid glycosides</b> by Bao Yang, Huiling Liu, Jiali Yang, Vijai Kumar Gupta and Yueming Jiang	116
<b>A state-of-the-art review on the elaboration of fish gelatin as bioactive packaging: Special emphasis on nanotechnology-based approaches</b> by Seyed Fakhreddin Hosseini and M. Carmen Gómez-Guillén	125
<b>Bioactive peptides as natural antioxidants in food products – A review</b> by Jose M. Lorenzo, Paulo E.S. Munekata, Belen Gómez, Francisco J. Barba, Leticia Mora, Cristina Pérez-Santaescolástica and Fidel Toldrá	136
<b>How do oxyphytosterols affect human health?</b> by Mengmeng Wang and Baiyi Lu	148
<b>Polycyclic aromatic hydrocarbons in diet: Concern for public health</b> by Lochan Singh and Tripti Agarwal	160
<b>Review of the structural characterization, quality evaluation, and industrial application of <i>Lycium barbarum</i> polysaccharides</b> by Ding-Tao Wu, Huan Guo, Shang Lin, Shing-Chung Lam, Li Zhao, De-Rong Lin and Wen Qin	171
<b>Zein and zein -based nano-materials for food and nutrition applications: A review</b> by Mohammad Reza Kasaai	184
<b>Vitamin B3 forms as precursors to NAD+: Are they safe?</b> by B. Poljsak and I. Milisav	198
<b>Overcoming barriers to innovation in food and agricultural biotechnology</b> by Matthew S. Dahabieh, Stefanie Bröring and Elicia Maine	204
