

Volume 83 Issue 6
December 2018

- Grafting onto pumpkin rootstock is an efficient alternative to improve melon tolerance to NaCl stress 337
Thematic Issue
Qiushi Fu Xinying Zhang Qiusheng Kong Zhilong Bie Huaisong Wang
- The impact of cover crops and foliar application of micronutrients on accumulation of macronutrients in potato tubers at technological maturity stage 345
Thematic Issue
R. Gaj B. Murawska E. Fabisiak-Spychaj A. Budka W. Kozera
- Soil extract from an alfalfa (*Medicago sativa* L.) field improves potato rhizosphere enzyme activity and microbial quantity in a pot experiment 356
Thematic Issue
Yun Liu Shuhao Qin Liqin Jia Haojun Li Shangli Shi Junlian Zhang
- Morphology of anthocyanin vacuolar inclusions (AVIs) in purple sweet potato 364
Thematic Issue
H.M. Zhu R. Li X.D. Su M.J. Zhu
- Effects of soil properties and fertilization on quality and biological activity of Swiss chard 374
Thematic Issue
A. Topalović M. Knežević S. Trifunović M. Novaković M. Pešić D. Đurović
- Sensitivity of sweet pepper plants (*Capsicum annuum* L.) to iron excess 382
Thematic Issue
F. Casierra-Posada J.A. Camargo-Parra M.C. Acosta J. Cutler
- Growth performance, nutrients and microbial dynamic in aquaponics systems as affected by water temperature 388
Thematic Issue
S. Khalil
