December 2018

No. 4

CONTENTS

|                                                                                                                                                                                                                                                                            | PAGE |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Prevalence of acariosis in honeybee colonies of <i>Apis mellifera intermissa</i> in Algeria – Nouredine Adjlane, Habbi-Cherifi Assia, Nizar Haddad and Baz Ahcen                                                                                                           | 451  |
| Effect of organic and inorganic fertilizers on insect infestation, yield and seed components of soybean – M.I. Mogahed, Abou-Setta Lobna, Nazif Naglaa, Mohamed Magda, F.A. Hellal and S.A.A. El Sayed                                                                     | 455  |
| Preference, growth and development of <i>Oryzaephilus surinamensis</i> (L.) (Coleoptera: Silvanidae) on red, white and black rice in whole grain and flour form – L.P. Astuti, M.B. Mario and T. Widjayanti                                                                | 461  |
| The Relation of the bean flower thrips, <i>Megalurothrips usitatus</i> Bagnall (Thripidae) abundance with the existence of thrips predators on the legume plant (Fabaceae) in Jambi region, Sumatera, Indonesia – Desfaur Natalia, Asni Johari, Aprizal Lukman and Muswita | 469  |
| Rationalizing pest management in sugarcane – S. Chakraborti and Prasun Karmakar                                                                                                                                                                                            | 479  |
| Management of major pest and diseases in paddy: An impact study – B.C. Hanumanthaswamy and R. Nagaraja                                                                                                                                                                     | 487  |
| Evaluation of pigeonpea genotypes for their resistance against pod fly, <i>Melanagromyza obtusa</i> (Malloch) under natural conditions – Sunil Verma, R.P. Maurya, Gouri Shankar Giri and Ravindra Kumar                                                                   | 491  |
| Impact of farmscaping on the bioecology of gram pod borer – G. Chhangani, A. Vyas, M.K. Mahla and M.K. Tali                                                                                                                                                                | 495  |
| Monitoring of gram pod borer through sex pheromone traps in chickpea and their correlation with abiotic factors – R.K. Meena, A.R. Naqvi, D.S. Meena and A.K. Meena                                                                                                        | 499  |
| Effect of <i>Calotropis gigantea</i> (L.) W.T. Aiton. on pink mealybug, <i>Maconellicoccus hirsutus</i> (Green) (Hemiptera: Pseudococcidae) – Naorem Ibemu Devi, S. Jeyarajan Nelson and M. Kannan                                                                         | 503  |
| Inter and Intra specific competition among parasitoids of Bitter Gourd Gall Midge – M. Muthukumar, S. Sridharan, J.S. Kennedy, P. Jeyakumar and T. Arumugam                                                                                                                | 507  |

|                                                                                                                                                                                                                                                      |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Characterization of Chemo Sensory Protein (CSP) expressed in the antennae of <i>Spodoptera litura</i> (Fab.) (Noctuidae; Lepidoptera) – R. Aruna, S. Jeyarani and S. Mohankumar                                                                      | 511 |
| Transgenerational effect of Bisphenol A on the phenotypic characters of antennae in <i>Drosophila ananassae</i> (Doleschall) – T.K. Anuji, K. Shabith Raj, Francis Sunny and D.A. Evans                                                              | 517 |
| Hyperlipaemic response of topically applied synthetic neuropeptides in the plant bug <i>Iphita limbata</i> Stål (Pyrrhocoridae: Heteroptera) – A.P. Ajaykumar, M. Gokuldas and V.S. Binitha                                                          | 525 |
| Study on food consumption parameters of <i>Spodoptera litura</i> (Fab.) (Noctuidae: Lepidoptera) on different Bt cotton hybrid plant parts – G.B. Supriya, T.V.K. Singh, V. Sunitha and S.K. Vinod                                                   | 529 |
| Role of carpenter ants, <i>Camponotus</i> sp. as bioindicators for heavymetals and in modifying soil chemistry (Chennai, Tamil Nadu, India) – M. Chandran, D. Yuvaraj, C.S. Premkumar, A. Saravananan, S. Logeshwaran, A. Shabeer and Ivo Romauld S. | 537 |
| Non-target effect of pesticides on insect pollinators in coriander – Shivangi Joshi, Rajendra Nagar, A.K. Meena and R. Swaminathan                                                                                                                   | 541 |
| Impact of weather parameters on the population dynamics of <i>Cochlochila bullita</i> (Stal), infesting <i>Ocimum tenuiflorum</i> L. – Shruti Sharma and Mridula Chaturvedi                                                                          | 545 |
| Environmental control methods against wild and domestic species of Muridae family : A review – Rouhullah Dehghani, Hamid Reza Saberi, Seyedmahdi Takhtfiroozeh and Behrooz Jannat                                                                    | 549 |
| A narrative review of studies on diazinon removal and detoxification from polluted water with emphasis on electrochemical process – Davarkhah Rabbani, Rouhullah Dehghani, Behrooz Jannat and Fatemeh Gharagazloo                                    | 557 |
| Bio-efficacy of EC formulations of <i>Strychnos nux-vomica</i> extracts against <i>Plutella xylostella</i> Linn. in Cauliflower ( <i>Brassica oleracea</i> L. var. <i>botrytis</i> ) – C. Selvaraj, J.S. Kennedy and M. Suganthy                     | 563 |
| Contact Toxicity of some newer insecticides against mango mealy bug, <i>Drosicha mangiferae</i> (Green) – Priyanka Dwivedi, Gaurava Kumar and R.P. Srivastava                                                                                        | 569 |
| Evaluation of insecticides against rice leaf folder, <i>Cnaphalocrocis medinalis</i> (Guenee) – Chhavi, Pawan K. Sharma and Ajai Srivastava                                                                                                          | 575 |
| Evaluation of Hexythiazox 5.45 EC against red spider mite <i>Oligonychus coffeae</i> nietner on tea – J. Alfred Daniel and K. Ramaraju                                                                                                               | 579 |
| Effectiveness of insecticides against rice yellow stem borer, <i>Scirpophaga incertulas</i> wlk. – A.M. Kakde and K.G. Patel                                                                                                                         | 585 |
| Harvest time residues of emamectin benzoate 1.9 EC and 5 SG in chickpea – G. Vijayalakshmi and K. Bhuvaneshwari                                                                                                                                      | 591 |
| Further studies on genus Barsine Walker (Arctiidae: Lepidoptera) along with addition of two species from India – Amritpal Singh Kaleka                                                                                                               | 595 |
