

JOURNAL OF BERRY RESEARCH
Volume 8, Number 4, 2018

CONTENTS

Editorial

P. Pan and L.-S. Wang

Advancing berry research in cancer 237

*P. Pan, K. Oshima, Y.-W. Huang, M. Yearsley, J. Zhang, M. Arnold,
J. Yu and L.-S. Wang*

Gut bacteria are required for the benefits of black raspberries in *Apc^{Min/+}* mice 239

C.D. Agudelo, N. Ceballos, A. Gómez-García and M.E. Maldonado-Celis
Andean Berry (*Vaccinium meridionale* Swartz) Juice improves plasma antioxidant capacity and IL-6 levels in healthy people with dietary risk factors for colorectal cancer 251

P. Pan, A.A. Dombkowski, L.-S. Wang and G.D. Stoner

A nutrigenetic approach for investigating the chemopreventive effects of black raspberries during the development of preneoplastic esophagi in rats 263

*C.L. Céspedes-Acuña, J. Xiao, Z.-J. Wei, L. Chen, J.M. Bastias, J.G. Avila,
J. Alarcon-Enos, E. Werner-Navarrete and I. Kubo*

Antioxidant and anti-inflammatory effects of extracts from Maqui berry *Aristotelia chilensis* in human colon cancer cells 275

D.S. Peiffer

Preparing black raspberry components for their use as cancer therapeutics 297

P. Reboredo-Rodríguez

Potential roles of berries in the prevention of breast cancer progression 307
