ARTICLES

- Study of Total Bacteria and Ammonia-Oxidizing Bacteria and Ammonia-Oxidizing Archaea in Response to Irrigation with Sewage Sludge Compost Tea in Agricultural Soil
M. Vela-Cano, M. Gómez-Brandón, C. Pesciaroli, H. Insam, and J. González-López 145
- Effect of Diverse Compost Products on Soilborne Diseases of Potato
Carolyn Wilson, Bernie J. Zebarth, Claudia Goyer, and David L. Burton 156
- Cow Manure Disposal Using an Earthworm Bio-Bed and the Development of a Vermicompost-Based Substrate for Capsicum Seedlings
Zhao Haitao, Li Tianpeng, Shan Yuhua, Feng Ke, Yan Zhijun, and Zhu Qiande 165
- UV-Visible and Fluorescence Green Waste Composts Monitoring: Material Dependency
M. G. Abaker, M. Domeizel, O. R. Mouloubou, N. Rapetti, and S. Mounier 177
- Microbial Diversity in Compost is Critical in Suppressing Plant Fungal Pathogen Survival and Enhancing Cucumber Seedling Growth
Yune Cao, Yongqiang Tian, Yanming Gao, and Jianshe Li 189
- Use of Organic Compost for the Fertilization of Piatã and Paiaguás Grasses: Effects of Dose on Morphogenetic, Structural, Nutritional, and Productive Characteristics
Adriano Pereira da Silveira, Marco Antonio Previdelli Orrico Junior, Ana Carolina Amorim Orrico, Alice Watte Schwingel, Paulo López Carnavali, and Daniel Chiari Alves 201
- Reproduction Efficiency of *Eisenia foetida* and Substrate Changes During Vermicomposting of Organic Materials
Abbas Biabani, Lynne Carpenter-Boggs, Abdollatif Gholizadeh, Mosareza Vafaie-Tabar, and Mohammad Osman Omara 209
