

Contents

- 195 **Groundwater quality assessment and mapping using multivariate statistics and analytic hierarchy process in Bhubaneswar city, Odisha, India**
Madhumita Das, Ashok K. Nayak, Bishnupriya Das and O.P. Verma
- 208 **Spatio-temporal analysis of the Karun River water quality**
Mojtaba Moravej, Iman Karimirad and Kumars Ebrahimi
- 224 **A new equation to predict the total potential longshore sediment transport rate in the beach ocean area**
Saeed Khorram and Mahede Vahedi
- 262 **Application of global precipitation dataset for drought monitoring and forecasting over the Lake Urmia basin with the GA-SVR model**
Edris AhmadEbrahimpour, Babak Aminnejad and Keivan Khalili
- 278 **Development of water information communication framework**
Zarina Othman, Azizah Ya'acob, Wan Nur'ashiqin Wan Mohamad and Rozmel Abdul Latiff
