

## CONTENTS

### ORIGINAL ARTICLES

- 63 Genetic diversity and historic introgression in German Angler and Red Dual Purpose cattle and possibilities to reverse introgression  
*J. Schäler, R. Wellmann, J. Bennewitz, G. Thaller and D. Hinrichs*
- 73 Identification of differentially expressed genes in adipose tissue of min pig and large white pig using RNA-seq  
*W. T. Wang, D. J. Zhang, Z. G. Liu, F. G. Peng, L. Wang, B. Fu, S. H. Wu, Z. Q. Li, Z. H. Guo and D. Liu*
- 81 Reduced-rank estimation of genetic parameters for egg production traits and cluster analyses with predicted breeding values  
*Luara Afonso de Freitas, Rodrigo Pelicioni Savegnago, Natalia Vinhal Grupioni, Salvador Boccaletti Ramos, Nedenia Bonvino Stafuzza, Elsio Antônio Pereira de Figueiredo, Gilberto Silber Schmidt, Mônica Corrêa Ledur and Danisio Prado Munari*
- 87 Effects of three short-term pasture allocation methods on milk production, methane emission and grazing behaviour by dairy cows  
*A. Kidane, E. Prestløkken, K. Zaralis and H. Steinshamn*
- 103 Bedding hygiene, cleanliness and lying behaviour for heifers housed on wood chip or straw deep bedding  
*Juni Rosann Engelién Johanssen, Kristin Marie Sørheim, Turid Strøm and Emma Ida Brunberg*
- 112 Premie race participation is associated with increased career longevity and prize money earnings in Norwegian-Swedish Coldblooded Trotters  
*E. T. Todd, K. Jäderkvist Fegraeus, P. C. Thomson, C. F. Ihler, E. Strand, G. Lindgren and B. D. Velie*
