

Highlights in Ageing Research

Newly developed eczema during ageing: What influences do genes and air pollution have?..... 3
 Increased blood flow triggers liver regeneration 4
 Inflammatory processes impair nerve regeneration in old age..... 5
 Bioactive compound from the *Rhodiola* plant improves memory..... 6
 How breast cancer cells use fat to protect themselves 7
 Better understanding and recognizing cardiovascular diseases..... 8

Focus Groups and Projects

Sports and alzheimer: Diabetes and arteriosclerosis increase the risk of alzheimer’s disease 9
 Junior scientists researching on ageing synapses 11

Symposia and Workshops..... 12

Publications 14

News and Events..... 15
