

CONTENTS

Volume 25 Number 1 January–February 2019

Editorial

- 1 The editor's field – frequencies frequently...
Vincent M. Russo

Articles

- 3 Supplemental calcium nitrate mitigates NaCl-induced biochemical, physiological, and antioxidant changes in sesame
Maher Souguir, Maria Eduarda Machado Araújo, Hannachi Chérif, and Neji Tarchoun
- 27 Quantification of transpiration and evaporation of okra under subsurface drip irrigation using SIMDualKc model during vegetative development
Ashish Patil and K. N. Tiwari
- 40 Antioxidant defense response of fenugreek to solar UV
Sonika Sharma, Sunita Kataria, Juhie Joshi, and K. N. Guruprasad
- 58 Net cover color influence nutritive quality of African nightshade and spiderplant
Hesbon O. Obel, Arnold M. Opiyo, and Mwanarusi Saidi
- 73 Exogenously applied gibberellic acid affects shoot regeneration, growth, physiological parameters, and proximate and mineral contents of pot-grown *Solanecio bialfræ*
Jelili T. Opabode and Iqmot B. Raji
- 87 Aerodynamic properties of potato tubers to airflow separation from stones and clods
Ghasem Abedi, Shamsollah Abdollahpour, and Mohammad Reza Bakhtiari
- 95 Determinants of consumer willingness to pay for certified safe vegetables
Bismark Amfo, Samuel Arkoh Donkoh, and Isaac Gershon Kodwo Ansah

Volume 25 Number 2 March–April 2019

Editorial

- 109 The editor's field – the abstract
Vincent M. Russo

Articles

- 111 Evaluation of Genomic DNA-Extraction Methods for Molecular Analysis of *Solanecio bialfræ*
Jelili T. Opabode and Iqmot B. Raji
- 124 Evaluation of Physico-chemical Characteristics, Antioxidant Compounds and Antioxidant Capacity in Creole Tomatoes (*Solanum lycopersicum* L. and *S. pimpinellifolium* L.) in an Aquaponic System or Organic Soil
Mariana Delgado-Díaz, Mariel Gullian-Klanian, Odri Sosa-Moguel, Enrique Sauri-Duch, and Luis Fernando Cuevas-Glory
- 138 Information Use for Marketing Efficiency of Underutilized Indigenous Vegetable
Yetunde Kanyinsola Olugbade, Oluwemimo Oluwasola, Adeolu Babatunde Ayanwale, and Durodoluwa Joseph Oyedele

- 146 Seed transmissibility of Cucumber mosaic virus in *Capsicum* species
Olawale Arogundade, Olusegun Samuel Balogun, and P. Lava Kumar
- 154 Constraints affecting summer vegetable cultivation
Bassim H. Kshash
- 164 Growth and fruit yield of pepper species as affected by plant spacing
Adewale Waheed Salau, Omotayo Babatunde Hammed, Eytayo Adekunle Makinde, and Olatunde Musibau Olosunde
- 176 Price Forecasting of Tomatoes
A. Amarender Reddy
- 185 Yield response of hydroponically grown mustard spinach and non-heading Chinese cabbage to frequency of leaf harvest and flower removal
Martin Makgose Maboko and Christian Phillipus Du Plooy
- 196 Postharvest quality and nutrient contents of long sweet pepper enhanced by supplementary potassium foliar application
Said A. Shehata, Mohamed M. El-Mogy, and Hanaa F. Y. Mohamed

Volume 25 Number 3 May–June 2019

Editorial

- 211 The editor's field – planting flat or on...
Vincent M. Russo

Articles

- 213 Farmer knowledge of bacterial wilt and root-knot nematodes and practices to control the pathogens in high tunnel tomato production in the tropics
Davis Fundi Ileri, Lucy Kananu Murungi, Daisy Chepkoech Ngeno, and Jesca Mbaka
- 226 Okra growth and drought tolerance when exposed to water regimes at different growth stages
Sifau A. Adejumo, Okechukwu S. Ezeh, and Luis A.J. Mur
- 259 Putrescine affects tomato growth and response of antioxidant defense system due to exposure to cinnamic acid
Vijaya Yadav, N. B. Singh, Himani Singh, Ajey Singh, and Imtiyaz Hussain
- 278 Foliar application of Tecamin max® to alleviate water deficit on vegetative growth and yield of okra
Aziz Mahdi Abd Al-Shammari, Mohammed Ali Abood, and Ghassan Jaafar Hamdi

Reviews

- 285 Determination of substrate suitability index for prioritizing substrates for crop production under protected culture
Amaresh Sarkar and Mrinmoy Majumder
- 295 Application of edible coatings on fresh and minimally processed vegetables: a review
Poorva Sharma, V. P. Shehin, Navpreet Kaur, and Pratibha Vyas

Volume 25 Number 4 July–August 2019

Editorial

- 315 The editor's field – what does it mean to fallow?
Vincent M. Russo

Articles

- 317 Development of a dispersive liquid–liquid microextraction method for preconcentration and determination of copper in water and vegetables
Alireza Veysi, Maryam Khanmoradi, and Amir Ali Taghipour
- 330 Hepatoprotective, anti-hemolytic, and anti-radical properties of cold-pressed, no-solvent, extract of bottle gourd fruit
Dildar Ahmed, Yasra Naseer, Saman Hina, and Aysha Bukhari
- 340 Nitrogen fertilizer on storage life of short-day onion
Mbulelo Ncayiyana, Martin M. Maboko, and Isa Bertling
- 346 Proximate analysis, mineral composition, and antioxidant properties of bitter leaf and scent leaf
Gideon O. Okunlola, Mahboob A. Jimoh, Olusanya. A. Olatunji, Abdulfatai B. Rufai, and Adepeju O. Omidiran
- 355 An economic analysis of watermelon marketing
Olubunmi L. Balogun, Olatomide S. Akinboro, Oladele T. Akinwole, and Emeka E. Osuji
- 362 Antioxidant potential of commonly consumed underutilized leguminous vegetables
Tanmay Kumar Koley, Arti Maurya, Ajay Tripathi, B. K. Singh, Mamta Singh, T. L. Bhutia, P. C. Tripathi, and Bijendra Singh
- 373 A critical review on Tomato leaf curl virus resistance in tomato
Ramesh Kumar Singh, Nagendra Rai, Amareesh Kumar Singh, Prashant Kumar, and Bijendra Singh
- 394 Foliar application of Tecamin flower® to alleviate water deficit on vegetative growth and yield of tomato
Mohammed Ali Abood, Aziz Mahdi Abd Al-Shammari, and Ghassan Jaafar Hamdi
- 400 Effect of manure on growth and yield of broccoli
Hameed Salih Hammad, Ahmed Amir Murad Al-Mandalawi, and Ghassan Jaafar Hamdi

Volume 25 Number 5 September–October 2019

Editorial

- 407 The editor's field – citations
Vincent M. Russo

Articles

- 409 Titanium dioxide and zinc oxide nanoparticles affect some bacterial diseases, and growth and physiological changes of beetroot
Zaki A. Siddiqui, Manzoor R. Khan, Elsayed F. Abd_Allah, and Aiman Parveen
- 431 Phytochemical and antioxidant properties of forms of *Basella*
Taiwo Ayomipo Adenegan-Alakinde and Funmilola Mabel Ojo

- 441 Genotypic and breeding potential to improve mineral content of vegetable crops: an overview
Binod Kumar Singh and Bhupinder Singh
- 457 Genetic diversity and structure in *Amorphophallus* spp. Blume ex Decne. using morphological and ISSR markers
Shirly Raichal Anil, Elenjikkal Avarachan Siril, and Salma Beevi Suhara Beevy
- 482 Selecting donor parents for future breeding aiming at tolerance to viral diseases with special emphasis on enation leaf curl virus in Okra
Yogendra Yadav, Praveen Kumar Maurya, Swadesh Banerjee, Tridip Bhattacharjee, Imtinungsang Jamir, Soumitra Chatterjee, Asit Kumar Mandal, Subrata Dutta, and Arup Chattopadhyay
- 503 Impact of surface drip irrigation manners and allowed moisture depletion percent on potato growth and yield
Shuker Mahmood Hassan Al-Mehmdy, Saad Enad Harfoush Aldulaimy, and Mohammed Ali Abood Aljanabi

Volume 25 Number 6 November–December 2019

Editorial

- 511 The editor's field – Types of citations
Vincent M. Russo

Articles

- 514 Cultivation practice on nitrate, lead and cadmium contents of vegetables and potential health risks in children
Weeraya Karnpanit, Wenika Benjapong, Songsak Srianujata, Nipa Rojroongwasinkul, Pharrunrat Tanaviyutpakdee, Jakkrit Sakolkittinapakul, Amphika Poowanawatien, Channarong Jatutipsompol, and Vijay Jayasena
- 529 Impact of single and double infection with Cucumber mosaic virus and Potato virus Y on growth and yield of pepper
Olawale Arogundade, Olusegun S. Balogun, Adebo U. Goodness, and P. Lava Kumar
- 542 Factor analysis, stepwise regression and path coefficient analyses of yield, yield-associated traits, and fruit quality in tomato
Mohammad Bojarian, Hossein Ali Asadi-Gharneh, and Maryam Golabadi
- 554 Impact of Crude Oil on Yield and Phytochemical Composition of Selected Green Leafy Vegetables
Johnson Odukoya, Ronnie Lambert, and Ruben Sakrabani
- 571 Efficiency of male and female as irrigated onion growers
Haregu Gebrezgabher Gebremariam, Leake Gebresilassie Weldegiorgis, and Assefa Hdgot Tekle
- 581 Ethanolamine affects physiological responses of salt-treated jute plants
Helal Ragab Moussa, Eman El-Sayed Mohamed Selem, and Hamed Ali Ghramh
- 590 Farm-level impacts of eggplant integrated pest management: a stochastic frontier production function approach
Md. Sadique Rahman and George W. Norton

- 601 Exogenous melatonin-stimulated defense responses in tomato plants treated with polyethylene glycol
Perihan Karaca and Fazilet Özlem Cekic
- 610 Nutraceutical and antioxidant evaluation of *Abelmoschus* taxa
Ashwini Venkatrao Mohite and Rajaram Vithoba Gurav
