

Genetics, Animal Genetic Resources and Breeding*Original research articles*

Preventing twin pregnancies in dairy cattle, turning the odds into reality
F. López-Gatius and R.H.F. Hunter

Effects of Actigen, a second-generation mannan rich fraction, in antibiotics-free diets on growth performance, intestinal barrier functions and inflammation in weaned piglets
M. Song, Y. Fan, H. Su, J. Ye, F. Liu, X. Zhu, L. Wang, P. Gao, G. Shu, Z. Wang, F. Zhu, G. Lin, Y. Xue, Q. Jiang and S. Wang

Effect of dietary resveratrol supplementation on growth performance, immune response, serum biochemical indices, cecal microflora, and intestinal morphology of broiler chickens challenged with *Escherichia coli*
H. Mohebodini, V. Jazi, R. Bakhshalinejad, A. Shabani and A. Ashayerizadeh

First report of postmortem pH evolution and rigor mortis in guinea pigs
D. Sánchez-Macías, L. Cevallos-Velastegui, D. Nuñez-Valle and A. Morales-delaNuez

Carcass and meat quality traits of Nellore young bulls and steers throughout fattening
L.H.P. Silva, D.E.F. Assis, M.M. Estrada, G.J.F. Assis, G.D.R. Zamudio, G.B. Carneiro, S.C. Valadares Filho, M.F. Paulino and M.L. Chizzotti

The effect of pen design on pen floor cleanliness in farrowing pens for loose housed lactating sows
K.E. Bøe, E.J.S. Hall and G.M. Cronin

Effect of environmental enrichment with wood materials and straw pellets on the metabolic status of sows during gestation
H. Quesnel, B. Peuteman, M.-C. Père, I. Louveau, L. Lefaucheur, M.-H. Perruchot, A. Prunier, M.C. Meunier-Salaün, D. Gardan-Salmon, F. Gondret and E. Merlot

Genomic analysis of the population structure in horses of the Brazilian Mangalarga Marchador breed
B.A. dos Santos, G.L. Pereira, F.d.O. Bussiman, V.R. Paschoal, S.M. de Souza Júnior, J.C.d.C. Balieiro, L.A.L. Chardulo and R.A. Curi

Reaction norm models for the study of genotype x methionine + cystine level interaction in meat-type quail
G.C. Gouveia, F. Ferreira, L.R.A. Abreu, V.M.P. Ribeiro, B.M.M. Rocha, F.L.B. Toral and M.A. Silva

Genome-wide associations and detection of candidate genes for direct and maternal genetic effects influencing growth traits in the Montana Tropical® Composite population

1 L. Grigoletto, L.F. Brito, E.C. Mattos, J.P. Eler, F.O. Bussiman, B.d.C.A. Silva, R.P. da Silva, F.E. Carvalho, M.P. Berton, F. Baldi and J.B.S. Ferraz 64

Reproductive performance of cows and genetic correlation with weight gains and principal components of traits used in selection of Nelore cattle

4 P.I. Schmidt, I.A. Ferreira, D.D. Silveira, G.S. Campos, F.R.P. Souza, R. Carvalheiro and A.A. Boligon 77

Genetic parameters of reproductive traits from artificial insemination records of Japanese Black cows
A. Setiaji and T. Oikawa 85

Intake, milk production and grazing behaviour responses of strip-grazing dairy goats to daily access time to pasture and to dehydrated lucerne supplementation
A. Charpentier, H. Caillat, F. Gastal and R. Delagarde 90

13 Unraveling the effect of body structure score on phenotypic plasticity for body weight at different ages in Guzerat cattle
L.F.M. Mota, L.S. Costa, N.A.M. Garzón, T.L. Passafaro, D.O. Silva, L.R.A. Abreu, L.L. Verardo, C.M. Bonafé and H.T. Ventura 98

22 Genomic evaluation of genotype by prenatal nutritional environment interaction for maternal traits in a composite beef cattle breed
E.H. Hay and A. Roberts 118

28 Effect of inclusion rate of corn silage in ensiled total mixed ration on dry matter intake, nutrient digestibility, and ruminal fermentation in Japanese Wagyu steer
K. Hosoda, H. Ohmori, Y.-n. Nakamura and M. Kamiya 126

37 Genetic parameters for linear type traits including locomotion in Italian Jersey cattle breed
C. Roveglia, G. Niero, T. Bobbo, M. Penasa, R. Finocchiaro, G. Visentin, N. Lopez-Villalobos and M. Cassandro 131

43 Effect of dietary valine supplementation to low protein diets on performance, intestinal morphology and immune responses in broiler chickens
S. Allameh and M. Toghayani 137

49 Different assessment systems fail to agree on the evaluation of dairy cattle welfare at farm level
G. De Rosa, R. Di Palo, R. Serafini, F. Grasso, A. Bragaglio, A. Braghieri and F. Napolitano 145

Genome association of carcass and palatability traits from <i>Bos indicus-Bos taurus</i> crossbred steers within electrical stimulation status and correspondence with steer temperament 1. Carcass D.G. Riley, R.K. Miller, K.L. Nicholson, C.A. Gill, A.D. Herring, P.K. Riggs, J.E. Sawyer, J.W. Savell and J.O. Sanders		188
Cardiac function and feed efficiency: Increased right-heart workload in feed inefficient beef cattle J.C. Munro, P.W. Physick-Sheard, W.G. Pyle, F.S. Schenkel, S.P. Miller and Y.R. Montanholi	150	
Body weight and ultrasound measurements over the finishing period in Iberian and F1 Large White x Landrace pigs raised intensively or in free-range conditions J.M. Almeida, M.C. Bressan, A.J. Amaral, C. Bettencourt, J. Santos-Silva, O. Moreira and L.T. Gama	159	105
Meta-analysis of some physiologic, metabolic and oxidative responses of sheep exposed to environmental heat stress I. Belhadj Slimen, M. Chniter, T. Najar and A. Ghram	170	203
Copy number variants reveal genomic diversity in a Mexican Creole cattle population M.C. Cozzi, C.P. Martinez-Ruiz, S.I. Roman-Ponce, V.E.V. Murillo, Á.R. Utrera, M.M. Montaño-Bermúdez, G. Martinez-Velazquez and M.G. Strillacci	179	210
<i>Short communication</i>		
Genetic diversity of the Polish Hunting Dog population based on pedigree analyses and molecular studies M. Goleman, I. Balicki, A. Radko, A. Jakubczak and A. Fornal	194	114
Adipogenesis, fibrogenesis and myogenesis related gene expression in longissimus muscle of high and low marbling beef cattle D. Chen, W. Li, M. Du and B. Cao		
Livestock Farming Systems and Management		
<i>Original research articles</i>		
Biotechnical and economic performance of mixed dairy cow-suckler cattle herd systems in mountain areas: Exploring the impact of herd proportions using the Orfee model Z.R. Diakité, C. Mosnier, R. Baumont and G. Brunschwig		
Straw vs. peat as nest-building material – The impact on farrowing duration and piglet mortality in loose-housed sows E.M. Rosvold and I.-L. Andersen		
The <i>ACVR1</i> gene is significantly associated with growth traits in Chinese beef cattle J. Cheng, X. Cao, D. Hao, Y. Ma, X. Qi, B. Chaogetu, C. Lei and H. Chen
