

## PAPERS

1507

### **The reactivity and pathway of Fenton reactions driven by hydroxybenzoic acids: the effect of hydroxylation**

Daojian Tang, Guishui Zhang, Ya Wang, Fengxia Chen and Jiahai Ma\*

1515

### **A novel strategy using peroxymonosulfate to control the formation of iodinated aromatic products in treatment of phenolic compounds by permanganate**

Juan Li, Jin Jiang,\* Su-Yan Pang, Shaofang Sun, Lihong Wang, Yang Zhou, Zhen Wang and Yuan Gao

1523

**Effects of zinc orthophosphate on the antibiotic resistant bacterial community of a source water used for drinking water treatment**

Anthony D. Kappell, Katherine R. Harrison and Patrick J. McNamara\*

1535

**Monitoring the integrity of reverse osmosis membranes using novel indigenous freshwater viruses and bacteriophages**

Luc M. Hornstra,\* Tania Rodrigues da Silva, Bastiaan Blankert, Leo Heijnen, Erwin Beerendonk, Emile R. Cornelissen and Gertjan Medema

1545

**Seasonal treatment and economic evaluation of an algal wastewater system for energy and nutrient recovery**

Yalin Li, Sydney A. Slouka, Shanka M. Henkanatte-Gedera, Nagamany Nirmalakhandan and Timothy J. Strathmann\*

1558

**Cellulose nanofibers and chitosan to remove flexographic inks from wastewaters**

Ana Balea, M. Concepcion Monte, Elena Fuente, Jose Luis Sanchez-Salvador, Angeles Blanco\* and Carlos Negro

1568

**Step-by-step analysis of drinking water treatment trains using size-exclusion chromatography to fingerprint and track protein-like and humic/fulvic-like fractions of dissolved organic matter**

Alexey Ignatev\* and Tuula Tuhkanen

1582

**Oxidation of ammonium by Feammox *Acidimicrobiaceae* sp. A6 in anaerobic microbial electrolysis cells**

Melany Ruiz-Urigüen, Daniel Steingart and Peter R. Jaffé\*

1593

**Water extractable organic matter (WEOM) as an indicator of granular activated carbon (GAC) bed life and water quality outcomes in drinking water treatment**

J. P. Ritson\* and N. J. D. Graham

1599

**Assessing the sustainability of on-site sanitation systems using multi-criteria analysis**

Brenda Vidal,\* Annelie Hedström, Sylvie Barraud, Erik Kärman and Inga Herrmann
