

## CONTENTS

### ORIGINAL ARTICLES

- 95 Comparative response of spring and winter triticale productivity and bioethanol yield to fertilisation intensity  
*Daiva Janusauskaite, Dalia Feiziene and Virginijus Feiza*
- 105 Growth, yield and antioxidant capacity of strawberry under various  $K^+ : Ca^{++}$  ratios in hydroponic culture  
*Mohammad Javad Nazaridelfou, Masoud Haghshenas, Hamideh Jaberian Hamedan and Antonio Ferrante*
- 114 Mineral oil barrier is an effective alternative for suppression of damage by white snails  
*Mehraneh Sepasi, Mohammad Reza Damavandian and Behnam Amiri Besheli*
- 121 The effect of biostimulators on the content of crude oil and total protein in winter oilseed rape (*Brassica napus* L.) seeds  
*Marek Gugala, Anna Sikorska, Krystyna Zarzecka, Krzysztof Kapela and Iwona Mystkowska*
- 126 Characterisation of agro-morphological traits of *corchorus* accessions  
*Sweetbird Phindile Dube, Diana Marais, Sydney Mavengahama, Corlina Margaretha Van Jaarsveld and Abe Shegro Gerrano*
- 135 Plant growth promoting bacteria increases biomass, effective constituent, and modifies rhizosphere bacterial communities of *Panax ginseng*  
*Wenxiu Ji, Xue Leng, Zhengxun Jin and Hulin Li*
- 147 Alphaproteobacteria communities depend more on soil types than land managements  
*Orsolya Gazdag, Tünde Takács, László Ködöböcz, Gergely Krett and Tibor Szili-Kovács*
- 155 Selection of cowpea genotypes based on grain mineral and total protein content  
*Abe Shegro Gerrano, Willem S. Jansen van Rensburg, Sonja L. Venter, Namera G. Shargie, Beyene A. Amelework, Hussein A. Shimelis and Maryke T. Labuschagne*
- 167 Mulching offers protection from *Striga asiatica* L. Kutnze parasitism in *Sorghum* genotypes  
*Mandumbu Ronald, Mutengwa Charles, Mabasa Stanford and Mwenje Eddie*
- 174 Field testing of different synthetic attractants for mass trapping of common European cockchafer (*Melolontha melolontha* [L.], Coleoptera, Scarabaeidae) adults  
*Stanislav Trdan, Jana Čuk, Anka Poženel, Mojca Bavcon Kralj, Mojca Rot, Branko Carlevaris, Ivan Žežlina, Matej Vidrih, Žiga Laznik and Tanja Bohinc*
- 181 Breeding rice for rice yellow mottle virus resistance in Sub-Saharan Africa: a review  
*William Titus Suvi, Hussein Shimelis and Mark Laing*
