

CONTENTS

From urban sprawl to compact green cities – advancing multi-scale and multi-dimensional analysis M. Artmann, L. Inostroza (Germany) and P. Fan (USA)	1	Methodological framework for urban sprawl control through sustainable planning of urban green infrastructure A.A. Gavrilidis, M.R. Niță, D.A. Onose, D.L. Badiu and I.I. Năstase (Romania)	67
Urban sprawl, compact urban development and green cities. How much do we know, how much do we agree? M. Artmann, L. Inostroza (Germany) and P. Fan (USA)	3	Using multi-seasonal Landsat imagery for rapid identification of abandoned land in areas affected by urban sprawl S.R. Grădinaru (Switzerland, Romania), F. Kienast and A. Psomas (Switzerland)	79
How smart growth and green infrastructure can mutually support each other — A conceptual framework for compact and green cities M. Artmann, M. Kohler, G. Meinel (Germany), J. Gan (China,) and I.-C. Ioja (Romania)	10	Combining high-resolution images and LiDAR data to model ecosystem services perception in compact urban systems R. Laforteza (Italy, USA) and V. Giannico (Italy)	87
Understanding the spatiotemporal variation of urban land expansion in oasis cities by integrating remote sensing and multi-dimensional DPSIR-based indicators Y. Liu, W. Song and X. Deng (PR China)	23	Planning multifunctional green infrastructure for compact cities: What is the state of practice? R. Hansen (Germany), A.S. Olafsson (Denmark), A.P.N. van der Jagt (United Kingdom, The Netherlands), E. Rall and S. Pauleit (Germany)	99
Integrated evaluation framework for environmental planning in the context of compact green cities B. Richter and M. Behnisch (Germany)	38	Spatial pattern of urban green spaces in a long-term compact urbanization process—A case study in China C. Sun, T. Lin, Q. Zhao, X. Li, H. Ye, G. Zhang, X. Liu and Y. Zhao (China)	111
Urban sprawl in a megaregion: A multiple spatial and temporal perspective W. Zhou, M. Jiao, W. Yu and J. Wang (China)	54
