

THE JOURNAL OF  
**Horticultural  
& Science  
Biotechnology**

VOLUME 94  
ISSUE 2  
MARCH 2019  
ISSN 1462-0316

**Centenary Review**

- 137 Deficit irrigation as a strategy to control growth in ornamental plants and enhance their ability to adapt to drought conditions  
*M.J. Sánchez-Blanco, M.F. Ortuño, S. Bañón and S. Álvarez*

**Articles**

- 151 Expression analysis suggests potential roles for PH-LIKE (PHL) genes in diploid strawberry *Fragaria vesca* L. seedling hormone response and fruit development  
*Jian Zheng, Minghao Cao, Zhiqiang Zhang and Zhi-Liang Zheng*
- 160 Differential expression of the ascorbate oxidase multigene family of *Camellia sinensis* in response to stress  
*Kun-Hong Tian, Cheng Pan, Yuan-Fei Yang, Lei-Gang Wang, Qi-Lu Sun, Yu-Ting Pan, Ye-Yun Li, Jia-Yue Jiang and Chang-Jun Jiang*
- 171 Selection and mechanism exploration for salt-tolerant genes in tomato  
*Xiaohong Kou, Xiuyu Chen, Cuiyu Mao, Yulong He, Yanchun Feng, Caie Wu and Zhaohui Xue*
- 184 Comparative transcriptome analysis reveals a role for anthocyanin biosynthesis genes in the formation of purple peel in Minhou wild banana (*Musa itinerans* Cheesman)  
*Sufang Deng, Chunzhen Cheng, Zhuaxia Liu, Yukun Chen, Zihao Zhang, Yuji Huang, Yuling Lin, Tianchi Wang and Zhongxiong Lai*
- 201 Oxylinin affects ethylene metabolism and ethylene receptor gene expression levels in peach fruit (*Prunus persica* L. Batsch)  
*Satoru Kondo, Tomohiro Osumi, Suktawee Sirinan, Shanshan Wang, Takanori Saito, Katsuya Okawa and Hitoshi Ohara*
- 210 Sweet orange genetic transformation with the *attacin A* gene under the control of phloem-specific promoters and inoculation with *Candidatus Liberibacter asiaticus*  
*Eveline Carla da Rocha Tavano, Ligia Erpen, Bianca Aluisi, Ricardo Harakava, João Roberto Spotti Lopes, Maria Lucia Carneiro Vieira, Sônia Maria De Stefano Piedade, Beatriz Madalena Januzzi Mendes and Francisco de Assis Alves Mourão Filho*
- 220 Seed germination and seedling vigour of transgenic tobacco (*Nicotiana tabacum* L.) with increased proline accumulation under osmotic stress  
*Fabiana de Lima Abrantes, Alessandra Ferreira Ribas, Luiz Gonzaga Esteves Vieira, Nelson Barbosa Machado-Neto and Ceci Castilho Custódio*
- 229 Adventitious shoot regeneration and *Agrobacterium tumefaciens*-mediated transformation of leaf explants of sweet cherry (*Prunus avium* L.)  
*Xiaojuan Zong, Qixia Chen, Mohamed A. Nagaty, Yunyan Kang, Gregory Lang and Guo-qing Song*
- 237 S-genotype characterisation of 10 Kernel-apricots native to China  
*Mengpei Liu, Pei Hou, Lihua Zhang, Yu Dong and Wei Zong*
- 243 Effects of biennial cropping and controlled shoot density on yield performance and fruit quality in red raspberry (*Rubus idaeus* L.)  
*A. Sønsteby, U. M. Roos and O. M. Heide*
- 251 Conditioning is not needed for late summer and early fall production of June-planted 'Albion' strawberry (*Fragaria X ananassa* Duch.) in the plasticulture system  
*Edward F. Durner*
- 259 Nonlinear regression for description of strawberry (*Fragaria x ananassa*) production  
*Maria Inês Diel, Bruno Giacomini Sari, Dionatan Ketzer Krysczun, Tiago Olivoto, Marcos Vinícius Marques Pinheiro, Daniela Meira, Denise Schmidt and Alessandro Dal'Col Lúcio*
- 274 Corrigendum
- 275 Corrigendum
