Volume 84 | Issue 1

February 2019

- A new approach for strawberry disease control
Thematic Issue
F. Takeda W.J. Janisiewicz B.J. Smith B. Nichols , 3
- Recombinase Polymerase Amplification Assay for fast, sensitive and on-site detection of *Phytophthora cactorum* without DNA extraction
Thematic Issue
M. Munawar A. Toljamo F. Martin H. Kokko › 14
- Reduced winter chill as a means to improve the production potential of late day-neutral strawberry cultivars
Thematic Issue
N. Gallace P. Lieten M. Boonen D. Bylemans , 20
- Effect of growing strawberries with superimposed levels of cropgutters on yield and quality
Thematic Issue
J.-P. Bosc A. Grisey › 24
- Analysis of bioactive compounds of three sea buckthorn cultivars (*Hippophaë rhamnoides* L. 'Askola', 'Leikora', and 'Orangeveja') with HPLC and spectrophotometric methods
Thematic Issue
G. Ficzek G. Mátravölgyi D. Furulyás C. Rentsendavaa I. Jócsák D. Papp G. Simon Gy. Végvári M. Stéger-Máté › 31
- Effects of partial root drying on strawberry fruit
Thematic Issue
Kai Zhang Zhengrong Dai Wei Wang Zhechao Dou Lingzhi Wei Wenwen Mao Yating Chen Yaoyao Zhao Tianyu Li Baozhen Zeng Ting Liu Jiaqi Yan Yijuan Fan Bingbing Li Wensuo Jia › 39
- The development of drosophilid species (*Diptera, Drosophilidae*) in different strawberry cultivars
Thematic Issue
I. Pajač Živković B. Duralija B. Barić G. Seljak D. Lemic A. Mešic , 48
