

BioControl

Journal of the International Organization for Biological Control

Volume 64 · Number 2 · April 2019

ORIGINAL PAPERS

Non-reproductive effects of two parasitoid species on the oriental armyworm *Mythimna separata* on wheat and maize plants

J. Zhou · L. Meng · B. Li 115

Continuous rearing of the predatory mite *Neoseiulus californicus* on an artificial diet

Z.-W. Song · D.T. Nguyen · D.-S. Li · P. De Clercq 125

Violet light is the most effective wavelength for recruiting the predatory bug *Nesidiocoris tenuis*

T. Uehara · T. Ogino · A. Nakano · T. Tezuka · T. Yamaguchi · Y. Kainoh · M. Shimoda 139

***Sphaerophoria rueppelli* adults change their foraging behavior after mating but maintain the same preferences to flower traits**

N. Rodríguez-Gasol · J. Avilla · S. Alegre · G. Alins 149

Natural occurrence of *Beauveria* spp. in outbreak areas of cockchafers (*Melolontha* spp.) in forest soils from Poland

M. Niemczyk · A. Sierpińska · A. Tereba · K. Sokołowski · P. Przybylski 159

Development of ready-to-use products derived from *Bacillus subtilis* strain CMs026 for plant disease control

Y. Weerapol · H. Nimraksa · A. Paradornuwat · P. Sriamornsak 173

Development of *Cercospora* leaf spot on *Ipomoea* weed species for biological control

K.L. Nechet · B.A. Halfeld-Vieira 185

Assessing the potential of fungi isolated from dieback-affected trees as biological control agents for prickly acacia (*Vachellia nilotica* subsp. *indica*)

A. Haque · R.D. van Klinken · K. Goulter · V.J. Galea 197

Molecular identification of *Botryosphaeria dothidea* as a fungal associate of the gall midge *Asphondylia prosopidis* on mesquite in the United States

I. Park · S. Sanogo · S.F. Hanson · D.C. Thompson 209

Bio-herbicidal effect of 5-aminoleveulinic acid producing rhizobacteria in suppression of *Lathyrus aphaca* weed growth

M. Phour · S.S. Sindhu 221
