

CONTENTS

Special Topics/Sujets Spéciaux

In memoriam/À la mémoire de Professor Robin A.A. Morrall

169

Bacteriology/Bacteriologie

Wet rot disease of banana (*Musa* sp.) caused by *Pectobacterium carotovorum* subsp. *carotovorum* in Turkey

H. Basim, E. Basim, D. Baki and A. Turgut

174

Genomics/Génomique

Comparative transcriptomic analysis reveals gene expression changes during early stages of *Plasmodiophora brassicae* infection in cabbage (*Brassica oleracea* var. *capitata* L.)

S. Wang, F. Yu, W. Zhang, J. Tang, J. Li, L. Yu, H. Wang and J. Jiang

188

Identification of basic helix-loop-helix transcription factors reveals candidate genes involved in pathogenicity of *Fusarium pseudograminearum*

L. Chen, X. Geng, Y. Ma, J. Zhao, T. Li, S. Ding, Y. Shi and H. Li

200

Epidemiology/Épidémiologie

Survival of the bean anthracnose fungus (*Colletotrichum lindemuthianum*) on crop debris in Canada

R. L. Conner, C. L. Gillard, K. B. McRae, S.-F. Hwang, Y.-Y. Chen, A. Hou, W. C. Penner and G. D. Turnbull

209

Simple sequence repeat marker analysis reveals grouping of *Pyrenophora tritici-repentis* isolates based on geographic origin

H. Momeni, A. Akhavan, R. Aboukhaddour, M. Javan-Nikkhah, M. Razavi, M. R. Naghavi and S. E. Strelkov

218

Susceptibility to *Stemphylium vesicarium* of asparagus, onion, pear, and rye in Canada

J. M. Foster, C. S. Tayviah, S. M. Stricker, B. D. Gossen and M. R. McDonald

228

Growth and colonization of organic matter in soil by *Fusarium proliferatum*

A. Reyes Gaige, M. Giraldo, T. Todd and J. P. Stack

242

Soilborne pathogens/Agents pathogènes telluriques

Characterizing interactions between *Fusarium graminearum* and *Fusarium virguliforme* on early soybean growth and development

D. A. Marburger, D. L. Smith and S. P. Conley

251

Disease control/Moyens de lutte

Meloidogyne incognita intensifies the severity of Fusarium wilt on watermelon caused by *Fusarium oxysporum* f. sp. *niveum*

G. K. H. Hua, P. Timper and P. Ji

261

Disease report/Rapport des maladies

Leaf blight caused by *Curvularia coicis* on Chinese pearl barley (*Coix chinensis*) in Fujian Province, China

Y. L. Dai, L. Gan, F. R. Chen and X. J. Yang

270

- Lasiodiplodia theobromae* and *L. pseudotheobromae* causing leaf necrosis on *Camellia sinensis* in Fujian Province, China
H. L. Li, R. S. Jayawardena, W. Xu, M. Hu, X. H. Li, J. H. Liu, K. D. Hyde and J. Yan 277
- Identification of watermelon chlorotic stunt virus from watermelon and zucchini in Saudi Arabia
A. A. Rezk, M. N. Sattar, K. A. Alhudaib and A. M. Soliman 285
- Identification of *Chilli leaf curl virus* associated with tomato leaf curl betasatellite infecting *Mentha* in Oman
M. S. Shahid, A. Raza, A. M. Al-Sadi and R. W. Briddon 291
- First report of sesame spot caused by *Xanthomonas campestris* pv. *sesami* in Sinaloa, Mexico
R. Félix-Gastélum, I. E. Maldonado-Mendoza, N. G. Olivas-Peraza, O. Peñuelas-Rubio, K. Y. Leyva-Madriral, R. Cervantes-Gámez, G. J. Lizarraga-Sanchez and R. M. Longoria-Espinoza 296
- Powdery mildew caused by *Golovinomyces spadiceus* on wild sunflower in Sinaloa, Mexico
R. Félix-Gastélum, D. D. Olivas-Peraza, F. R. Quiroz-Figueroa, K. Y. Leyva-Madriral, O. Peñuelas-Rubio, S. Espinosa-Matías and I. E. Maldonado-Mendoza 301
