

CONTENTS

<p>Comparative profiling of primary metabolites and volatile compounds in Satsuma mandarin peel after ozone treatment Q. Wu, X. Zhu, H. Gao, Z. Zhang, H. Zhu, X. Duan, H. Qu, Z. Yun and Y. Jiang (China)</p>	1	<p>Hydrogen peroxide accelerated the lignification process of bamboo shoots by activating the phenylpropanoid pathway and programmed cell death in postharvest storage D. Li, J. Limwachiranon, L. Li, L. Zhang, Y. Xu, M. Fu and Z. Luo (People's Republic of China)</p>	79
<p>Non-destructive identification and estimation of granulation in 'Sai Num Pung' tangerine fruit using near infrared spectroscopy and chemometrics P. Theanjumol, K. Wongzeewasakun, N. Muenmanee, S. Wongsapun, C. Krongchai, V. Changrue, D. Boonyakiat and S. Kittiwachana (Thailand)</p>	13	<p>Assessment of chemically characterized nanoencapsulated <i>Ocimum sanctum</i> essential oil against aflatoxigenic fungi contaminating herbal raw materials and its novel mode of action as methylglyoxal inhibitor V.K. Singh, S. Das, A.K. Dwivedy, R. Rathore and N.K. Dubey (India)</p>	87
<p>Melatonin decreases resistance to postharvest green mold on citrus fruit by scavenging defense-related reactive oxygen species Y. Lin, L. Fan, X. Xia, Z. Wang, Y. Yin, Y. Cheng and Z. Li (China)</p>	21	<p>Insights gained from metagenomic shotgun sequencing of apple fruit epiphytic microbiota D. Angeli (Italy), A.R. Sare, M.H. Jijakli (Belgium), I. Pertot (Italy) and S. Massart (Belgium)</p>	96
<p>Nondestructive detection of underlying moldy lesions of apple using frequency domain diffuse optical tomography W. Hu, J. Li, X. Zhu, Z. Wang (China), D. Piao (USA) and L. Zhao (China)</p>	31	<p>Morphological and quality characterization of grape berry and rachis in response to postharvest 1-methylcyclopropene and elevated oxygen and carbon dioxide atmospheres L. Wang, Z. Luo (China), J. Li (Netherlands), M. Yang, J. Yan, H. Lu, D. Li, C. Chen (China), M.S. Aghdam (Iran), B. Wu and L. Li (China)</p>	107
<p>Investigating the relationship between volatile components and differentially expressed proteins in broccoli heads during storage in high CO₂ atmospheres L. Wang, Y. Zhang, Y. Chen, S. Liu, L. Yun, Y. Guo, X. Zhang and F. Wang (China)</p>	43	<p>Measuring changes in consumer satisfaction associated with kiwifruit ripening: A new approach to understand human-product interactions with fruit F.R. Harker, D. Hunter, A. White, K. Richards, M. Hall and C. Fullerton (New Zealand)</p>	118
<p>Predictions of fruit shelf life and quality after ripening: Are quality traits measured at harvest reliable indicators? T. Nordey (Tanzania, France), F. Davrieux and M. Léchaudel (France)</p>	52	<p>Benzo-(1, 2, 3)-thiadiazole-7-carbothioic acid s-methyl ester (BTH) promotes tuber wound healing of potato by elevation of phenylpropanoid metabolism H. Jiang, B. Wang, L. Ma, X. Zheng, D. Gong, H. Xue, Y. Bi, Y. Wang, Z. Zhang (PR China) and D. Prusky (PR China, Israel)</p>	125
<p>Modeling postharvest loss and water and energy use in Florida tomato operations R.G. Suthar, J.I. Barrera, J. Judge, J.K. Brecht, W. Pelletier and R. Muneeppeerakul (United States)</p>	61	<p>Image-based deep learning automated sorting of date fruit A. Nasiri, A. Taheri-Garavand (Iran) and Y.-D. Zhang (UK)</p>	133
<p>The mechanism of induced resistance against <i>Fusarium</i> dry rot in potato tubers by the T-2 toxin H. Xue, Y. Bi (PR China), D. Prusky (PR China, Israel), H. Raza (Pakistan), R. Zhang, S. Zhang, M. Nan, Y. Zong and X. Cheng (PR China)</p>	69		

Nutritional composition in African nightshade (<i>Solanum scabrum</i>) influenced by harvesting methods, age and storage conditions D. Kirigia, T. Winkelmann (Germany), R. Kasili (Kenya) and H. Mibus (Germany)		
Information fusion of hyperspectral imaging and electronic nose for evaluation of fungal contamination in strawberries during decay Q. Liu, K. Sun, N. Zhao, J. Yang, Y. Zhang, C. Ma, L. Pan and K. Tu (China)	142	
Validation study for measuring absorption and reduced scattering coefficients by means of laser-induced backscattering imaging M. Zude-Sasse (Germany), N. Hashim (Germany, Malaysia), R. Hass, N. Polley and C. Regen (Germany)	161	
Determination of H ⁺ and Ca ²⁺ fluxes in cold-stored banana fruit using non-invasive micro-test technology J. Liu, F. Li, Y. Shan, Y. Zhou, L. Liang, H. Qu, Y. Jiang and J. Chen (China)		169
Comparison between 'Fuyan' and 'Dongbi' longans in aril breakdown and respiration metabolism L. Lin, Y. Lin, H. Lin (China), M. Lin, M.A. Ritenour (USA), Y. Chen, H. Wang (China), Y.-C. Hung (USA) and Y. Lin (China)		176
Physiochemistry of blackberries (<i>Rubus</i> L. subgenus <i>Rubus</i> Watson) affected by red drupelet reversion M. Edgley, D.C. Close, P.F. Measham and D.S. Nichols (Australia)	152	183
